

U. DEPTH- Adjusts the intensity of the chorus effect. A lower setting will introduce a subtle yet distinct effect, whereas a higher setting will create a more dramatic effect. With both the RATE (Item S) and DEPTH controls set midway or higher, a variety of vibrato/tremolo type effects can be achieved.

V. CHORUS INDICATOR- This LED is illuminated when the stereo chorus is active. The color of the LED is modulated red and green by the chorus sweep LFO to give a visual indication of the sweep rate.

W. FOOTSWITCH- Plug-in connection for remote footswitch to switch between the Normal and Drive channels and to activate the Stereo Chorus mode. For proper operation of the footswitch, both DRIVE SELECT (Item Q) and CHORUS SELECT (Item T) switches should be out. **NOTE:** Any good quality patch cord will work with the remote footswitch; however, a speaker grade cord is preferable to a coax guitar cord when it is available.

X. MONO FX SEND- This jack provides an unbalanced mono output signal from the preamp at a point before the internal CHORUS circuits. This output can be used in conjunction with the MONO FX RETURN (Item Y) as a patch point for mono effects devices. (SEE EFFECTS LOOP CONNECTION DIAGRAMS.) The MONO FX SEND can also be used to feed recording and sound reinforcement mixers a dry signal. (For a signal with internal CHORUS, use the STEREO FX SEND (Item Z) jack.) Additionally this output can be used to drive another ULTRA CHORUS as a slave amp. This is done by connecting a standard guitar cord from the MONO FX SEND jack of the master amplifier to the MONO FX RETURN jack of the slave.

Y. MONO FX RETURN- This unbalanced jack inputs signal to the stereo chorus-generating circuitry, which drives the stereo power amp section. It automatically disconnects the preamp and reverb circuitry when used. This is useful when using the MONO FX option or when using the ULTRA CHORUS as a slave amplifier for a mono signal source. The CHORUS is active in the slave so that a stereo image will be generated if it is used.

Z. STEREO FX SEND- This jack provides an unbalanced stereo output from the preamp, reverb and chorus circuits of the ULTRA CHORUS. This output can be used in conjunction with the STEREO FX RETURN (Item AA) as a patch point for stereo effects devices. (SEE EFFECTS LOOP CONNECTION DIAGRAMS.) The Stereo Effects Loop jacks are standard 1/4 inch Tip-Ring-Sleeve types, with the left channel signal on the tip and the right channel signal on the ring. This send can also be used to feed a stereo signal to two channels of a recording or sound reinforcement mixer. Additionally this output can be used to drive another ULTRA CHORUS as a slave amp. This is done by connecting a shielded stereo cord from the STEREO FX SEND jack of the master amplifier to the STEREO FX RETURN jack of the slave.

AA. STEREO FX RETURN- This stereo jack inputs signal directly to the left and right power amps. It automatically disconnects the preamp, reverb and chorus circuitry when used. This is useful when using the ULTRA CHORUS as a slave amplifier for a stereo signal source.

BB. POWER SWITCH- Turns A/C power ON and OFF. When the switch is OFF the amplifier is completely shut down.

Fender Power Chorus Amplifier Manual:

Music Direction for the Stage Joseph Church, 2015 Theater music directors must draw on a remarkably broad range of musical skills. Not only do they conduct during rehearsals and performances but they must also be adept arrangers, choral directors, vocal coaches, and accompanists. Like a record producer, the successful music director must have the flexibility to adjust as needed to a multifaceted job description, one which changes with each production and often with each performer. In Music Direction for the Stage, veteran music director and instructor Joseph Church demystifies the job in a book that offers aspiring and practicing music directors the practical tips and instruction they need in order to mount a successful musical production. Church, one of Broadway's foremost music directors, emerges from the orchestra pit to tell how the music is put into a musical show. He gives particular attention to the music itself, explaining how a music director can best plan the task of learning, analyzing, and teaching each new piece. Based on his years of professional experience, he offers a practical discussion of a music director's methods of analyzing, learning, and practicing a score, thoroughly illustrated by examples from the repertoire. The book also describes how a music director can effectively approach dramatic and choreographic rehearsals, including key tips on cueing music to dialogue and staging, determining incidental music and underscoring, making musical adjustments and revisions in rehearsal, and adjusting style and tempo to performers' needs. A key theme of the book is effective collaboration with other professionals from the production team to the creative team to the performers themselves, all grounded in Church's real world experience with professional, amateur, and even student performances. He concludes with a look at music direction as a career, offering invaluable advice on how the enterprising music director can find work and gain standing in the field.
