<http://www.trinitysem.edu/Student/LessonInstruction/CriticalPaper.html>

"CRITICISM": n. The art, skill or profession of making discriminating judgments and evaluations.

THE ESSENCE OF CRITICAL THINKING

Ask Four Basic Questions as You Read / Listen:

1. What is the book/message about as a whole?
2. What is the author/speaker saying in detail, and how is it said?
3. Is the book/message true, in whole or in part?
4. What is the significance of the book/message?

ELEMENTS OF A CRITICAL PAPER

The following is a general structure to follow for the *body* of a critical paper. Be sure to include a suitable introduction and conclusion, as described in the previous section, *How to Write a Whole Composition*. Adapt it to specific assignments as appropriate.

PART ONE: DESCRIPTION

Classify the book/message according to kind and subject matter.
Very briefly, state what the whole of the book/message is about.
Enumerate the major parts of the book/message in their order and relation.
Define the problem or problems that the author/speaker is trying to solve.

PART TWO: INTERPRETATION

Find the important words (terms) in the book/message and determine the author's/speaker's meaning of these terms, with precision.
Identify the most important sentences (propositions) in the book/message, the ones that express the judgments on which the whole book/message rests. These are the foundational affirmations and denials of the author/speaker. They must be either premises or conclusions. State them in your own words.
Construct the author's/speaker's arguments, beginning with any assumptions and/or self-evident propositions. An argument is the author's/speaker's line of reasoning aimed at demonstrating the truth or falsehood of his or her claims, that is, the coherent series of reasons, statements, or facts that support or establish a point of view. If the arguments are not explicitly expressed in the book/message, you will need to construct them from sequences of sentences.
Determine the author's/speaker's solutions to the problem or question that he or she posed. Ask: Which problems were solved and which were not? Did the author/speaker know which were not solved?

PART THREE: CRITICISM

General Pointers.

From this point on, you will have a chance to argue with the author/speaker and express yourself, but keep in mind the following general maxims of scholarly etiquette:

Do not say that you agree, disagree, or suspend judgment until you have adequately interpreted the book/message. Do not begin criticism until you are able to say, with reasonable certainty, "I understand."
