Jeanette Morelan Prairie School Racine Wisconsin. When I was in Mrs Blandford's class I learned to write a research paper. While I was in high school she published her research paper unit as a book and I used it to write my papers. Then as a college student I became dependent on it as a resource. Now that I am an English teacher too with a crucial pit stop of student teaching in her classroom I have been on the teaching side of her process. This book is the most complete research paper learning tool I have encountered. Tom Tuttle Starbuck Middle School teacher Racine Unified School District. I love this book. It made writing a research paper so much easier than I thought it would be. Just relax. The book will help you be organized. Make sure all your steps are done and turned in and your whole paper will be done on time. Don't get stressed and do your best. Joseph Vital student Park High School Racine Unified School District. Mars,2019-12-13 Academic writing is the term used for scientific papers written to show an objective stance organized in such a way that they can easily be replicated by others And although many assume that an academic paper must take the form of a thesis this isn't always true Academic documents include a wider broad of papers such as the Book Report Conference Paper Dissertation Essay Research Article Research Paper and Technical Report Another element to academic writing that few know about is that in any given topic and under any methodology the author or authors must assume a starting point a perspective exposed under the form of a hypothesis Ultimately any paper starts with a subjective approach an assumption that is then tested and verified proved or disproved Furthermore a research paper is always based on documented data reviewed about a certain topic in order to justify itself as a new step towards a better understanding and not merely a repetition of previous discoveries This new step however doesn't need to be intended forward and can merely refer to a new perspective about something previously studied or known For the purpose of presenting a qualifiable research with adequate and sophisticated results students and researchers must conduct an investigation under certain rules and formalized within a specific methodology It is this methodology that will then allow the necessary acquisition of skills through trial and error while providing a fruitful ground to learn from mistakes shown along the way and then correct any necessary

procedure being conducted. Taking into account the experience of the author as a college lecturer on the field of academic writing and research in China but also as a researcher and consultant for many companies from different countries namely in Europe China and the USA always predicting the outcome verified this book was prepared to help others in similar fields of work. The intention here is to allow an easy and practical attitude to investigation one that anyone can easily understand follow and apply on his own. More than helping college students in creating a better thesis this book can help anyone in the field of investigation in knowing which steps to follow to create strong valid and interesting arguments on any subject and that can then be applied to reach valuable outcomes on a personal or social level. Here you'll find guidelines related to how one can think and research more effectively. **How to Write a Research Paper** Martyn Shuttleworth, 2010. *How to Write a Research Paper* is an intuitive guide which is a gentle friendly introduction into the esoteric world of academic writing.
