## **Eve Ded Complex Guide:**

**Early English Devotional Prose and the Female Audience** Elizabeth Ann Robertson,1990 After the NOrman conquest women and the lower classes became the primary audiences for English as opposed to Latin or French literature Among the works written for female audiences are the hitherto neglected AB texts three female saints lives a tract on virginity a homily and a guide for anchoresses In this lucid innovative study Elizabeth Robertson shows that the AB texts were written in an effective experiential style that distinguished them from other spiritual works of the period Key characteristics of this special style nonteleological structre pervasive use of concrete imagery and thematic focus on the female body have been viewed by some as hallmarks of women s writing more generally Combining feminist theory with critical skill and an impressive command of Old and Middle English materials the author argues to the contrary that in the thirteenth century England this style was created by educated male writers in accord with their beliefs about nature and needs of marginal social groups Beginning with the history and motivations of female anchorites and surveying medieval philosophy and theology in relation to gender theory this book offers the first comprehensive analysis of the AB texts and then details their debt to earlier English vernacular works and to the continental theological movements that increasingly emphasized physical experience and matter The result is an exciting learned account of the feminization of early English prose

## ***Never Saw It Coming***

Karen A. Cerulo,2008-09-15 People especially Americans are by and large optimists They re much better at imagining best case scenarios I could win the lottery than worst case scenarios A hurricane could destroy my neighborhood This is true not just of their approach to imagining the future but of their memories as well people are better able to describe the best moments of their lives than they are the worst

Though there are psychological reasons for this phenomenon Karen A Cerulo in *Never Saw It Coming* considers instead the role of society in fostering this attitude. What kinds of communities develop this pattern of thought which do not and what does that say about human ability to evaluate possible outcomes of decisions and events? Cerulo takes readers to diverse realms of experience including intimate family relationships key transitions in our lives the places we work and play and the boardrooms of organizations and bureaucracies. Using interviews surveys artistic and fictional accounts media reports historical data and official records she illuminates one of the most common yet least studied of human traits a blatant disregard for worst case scenarios. *Never Saw It Coming* therefore will be crucial to anyone who wants to understand human attempts to picture or plan the future. In *Never Saw It Coming* Karen Cerulo argues that in American society there is a positive symmetry a tendency to focus on and exaggerate the best the winner the most optimistic outcome and outlook. Thus the conceptions of the worst are underdeveloped and elided. Naturally as she masterfully outlines there are dramatic consequences to this characterological inability to imagine and prepare for the worst as the failure to heed memos leading up to both the 9/11 and NASA Challenger disasters for instance so painfully reminded us. Robin Wagner Pacifici Swarthmore College Katrina 9/11 and the War in Iraq all demonstrate the costliness of failing to anticipate worst case scenarios. *Never Saw It Coming* explains why it is so hard to do so adaptive behavior hard wired into human cognition is complemented and reinforced by cultural practices which are in turn institutionalized in the rules and structures of formal organizations. But Karen Cerulo doesn't just diagnose the problem she uses case studies of settings in which people effectively anticipate and deal with potential disaster to describe structural solutions to the chronic dilemmas she describes so well. *Never Saw It Coming* is a powerful contribution to the emerging fields of cognitive and moral sociology.
