Frey,2025-04-11 The Latest Time Saving AI Tools that Make Learning More Engaging Busy educators need tools that support their planning and provide them with more time with students While artificial intelligence AI has emerged as a promising

solution it can only help if we are willing to continuously learn how to use it in ways that improve upon what we already do well. The Artificial Intelligence Playbook: Time Saving Tools for Teachers that Make Learning More Engaging, Second Edition is a thoroughly updated, expanded new edition that reflects the transformative changes that have emerged since the first publication, offering updated strategies, insights, research, and examples that address the latest developments in AI technology. Learn how to purposefully use AI with best practices for composing effective prompts for optimal output and incorporating images, PDFs, or other documents with those prompts. An expanded look at the responsible use of generative AI, addressing plagiarism, citations, and other common concerns. New strategies and research supporting AI literacy instruction to prepare students for an AI-powered future. More classroom examples demonstrating AI use cases for instructional best practices across various grade levels. Practical ways to implement AI to enhance teaching functions from planning instruction, assessment, student engagement, and more. Though AI has the potential to reduce workload for educators, it will never replace teachers. Your connection with students is irreplaceable and greatly impacts their learning. With The Artificial Intelligence Playbook, Second Edition in hand, educators will find even more time-saving tools to help build and sustain those vital relationships with students all while enhancing learning and engagement in the classroom.

Advances in Artificial Intelligence Research Beata Zielosko, Rafał Doroz, Ireneusz Czarnowski, Janusz Kacprzyk, Jacek Mańdziuk, 2026-01-01. This book is a collection of papers related to the latest achievements and development trends in the field of artificial intelligence. This compilation of peer-reviewed articles presents both theoretical foundations and innovative algorithms, as well as interdisciplinary applications that shape modern intelligent technologies. It serves as a platform for critical academic discussion, integrating methodological foundations with the analysis of contemporary AI issues. This book points to many advances, typically subdivided into parts related to data mining and machine learning, medical interdisciplinary and human behaviour applications, neural network and deep learning systems, computer vision, uncertainty in AI, robotics and autonomous systems, problem solving and optimisation, generative AI, decision making and classification in complex systems, and research of young scientists in the field of AI. By addressing innovative approaches, implementation efficiency, and responsibility in applications, this book is a valuable source of knowledge for researchers, practitioners, and students in technical disciplines.

*Photography as Social Transformation* Maciej Frąckowiak, 2025-06-03. Photography as Social Transformation resituates the practices of photography within contemporary sociological thinking. It examines how photography influences and shapes social order in the social media age and offers a methodological framework for studying transformation, revealing the forms the process can take and the settings in which it occurs. Photography and the transformation it effects is conceptualised using actor network theory, allowing it to be effectively studied in the context of globalisation and the rapid spread of mobile devices. Going beyond consideration of the images themselves, Maciej Frąckowiak analyses the rituals and devices used to take them, the networks in which they circulate, conversations about them, and institutional attempts to regulate their content.
