## **Language Use And Language Learning In Clil Classrooms:**

Language Use and Language Learning in CLIL Classrooms Christiane Dalton-Puffer,Tarja Nikula,Ute Smit,2010 This volume explores a highly topical issue in second and foreign language education the spreading practice in mainstream education to teach content subjects through a foreign language CLIL has been enthusiastically embraced as a language enrichment measure in many contexts and finally research can offer principled insights into its dynamics and potentials The editors introductory and concluding chapters offer a synthesis of current CLIL research as well as a critical discussion of unresolved issues relating both to theoretical concerns and research practice The individual contributions by authors from a range of European contexts report on current empirical research in this dynamic field The focus of these chapters ranges from theoretical to empirical from learning outcomes to classroom talk examining both the written and spoken mode across secondary and tertiary educational contexts This volume is a valuable resource not only for researchers and teachers but also for policy makers

Discourse in Content and Language Integrated Learning (CLIL) Classrooms Christiane Dalton-Puffer,2007 The label CLIL stands for classrooms where a foreign language English is used as a medium of instruction in content subjects This book provides a first in depth analysis of the kind of communicative abilities which are embodied in such CLIL classrooms It examines teacher and student talk at secondary school level from different discourse analytic angles taking into account the interpersonal pragmatics of classroom discourse and how school subjects are talked into being during lessons The analysis shows how CLIL classroom interaction is strongly shaped by its institutional context which in turn conditions the ways in which students experience use and learn the target language The research presented here suggests that CLIL programmes require more explicit language learning goals in order to fully exploit their potential for furthering the learners appropriation of a foreign language as a medium of learning

Content and Language Integrated Learning Yolanda Ruiz de Zarobe,Rosa María Jiménez Catalán,2009-05-11 This book contributes to the growth of interest in Content and Language Integrated Learning CLIL an approach to second foreign language learning that requires the use of the target language to learn content Within the framework of European strategies to promote multilingualism CLIL has begun to be used extensively in a variety of language learning contexts and at different educational systems and language programmes This book brings together critical analyses on theoretical and implementation issues of Content and Language Integrated Learning and empirical studies on the effectiveness of this type of instruction on learners language competence The basic theoretical assumption behind this book is that through successful use of the language to learn content learners will develop their language proficiency more effectively while they learn the academic content specified in the curricula
