Learning English Through Living In Korea:

Learning English Through Living in Korea Joel Monkash, 2014-12-30 This is a book for English language learners and instructors. There are comprehension questions and exercises. This is a lot of fun for everyone. **Historical Development of English Learning Motivation Research** Tae-Young Kim, 2021-09-07 This book clarifies the fundamental difference between North America based instrumental motivation and Korea and East Asia specific competitive motivation by which the EFL learners excessive competition to be admitted to famous universities and to be hired at a large scale conglomerate is the main source of L2 motivation. It enables readers to understand that EFL learning motivation reflects unique sociohistorical contexts grounded in a specific region or country. This book in turn necessitates the need to develop EFL motivation theory and research tradition which are firmly based on East Asian values and culture. **Attitudes to English Study among**

Japanese, Chinese and Korean Women Yoko Kobayashi, 2020-11-05 This edited book comprises chapters integrated around a central theme on college educated Japanese, Korean and Chinese women's orientation to English study. The collection is composed of two parts: 1. East Asian women's motivation to study in the West and 2. East Asian women's dream to use English as a career. The first part discusses their international migration as facilitated by factors characteristic of East Asian nations, e.g. middle class women's access to advanced education and yet unequal access to professional career and other factors inherent in each nation, e.g. different social evaluations of women equipped with competitive overseas degrees and English proficiency. The second part sheds light on the dreams and realities of East Asian female adults who, having been avid English learners, aim for dream jobs, e.g. interpreters or have few other career choices but to be re-trained as English specialists or even as Japanese language teachers working abroad. This collection is suitable for any scholar interested in the lives and voices of young educated women who strive to empower themselves with language skills in the seemingly promising neoliberal world that is however riddled with ideological contradictions. **Our Lives in Korea and Korea in Our Lives**

George Ogle, Dorothy Ogle, 2012-02-21 Because he prayed in public for eight men who were tortured and forced to make false confessions and were sentenced to death by South Korea's military dictatorship in 1974, George Ogle was deported from the country where he had worked as a missionary for 20 years. Two months later, when Dorothy and the four Ogle children left, Korea friends and colleagues commissioned them to "Go tell our story." After the South Korean people ended the military dictatorship in 1987, the story changed from the struggle for democracy and human rights to a story of the Korean movement for peace and reunification of their divided nation. Compelling and comprehensive, *Our Lives in Korea and Korea in Our Lives* is not only the Ogles' personal memoirs of living in South Korea from 1954-1974 and later visiting both the North and South; it is an effort to tell the story of the Korean people as the authors experienced it directly and as it has come to them by closely following the evolving history through almost 60 years. The book highlights the hope and promise of President Kim DaeJung's Sunshine Policy of constructive engagement with North Korea and is written to give readers around the world a vision for

ending the Korean War to bring peace prosperity and reconciliation to all of the Korean people *Learning English Through Life in Korea* Joel Monkash,2015-09-21 This book contains ESL essays which focus on Korean topics There are questions and activities at the end of each chapter The book is designed to be useful for ESL instructors and ESL learners A

This perceptive research offers new insights into the transnationalization of youth cultural practices from K-pop fandom to smartphone-driven storytelling. A transnational and ethnographic focus makes this book the first of its kind with an interdisciplinary approach that goes beyond the scope of existing digital media studies, youth culture studies, and Asian studies.
