

# Conclusion

- The conclusion---whether it is one paragraph or several---brings the essay to a satisfying close. Rather than simply repeating what has gone before, the conclusion brings all the writer's ideas together and answers the question, so what? Writers should remember the classical rhetoricians' advice that the last words and ideas of a text are those the audience is most likely to remember.

scholarly literature with extensive references and a lengthy annotated bibliography so readers can quickly obtain more information on any aspect they want. Thus this book provides a more evidence based scholarly account of how medical scientific papers should be written in order to improve medical communication and accelerate scientific progress. After reading this entire book cover to cover, medical researchers will know how to write better quality medical papers and they will be able to publish their work in better journals with less time and struggle. This book is essential reading for anyone conducting research in clinical medicine, life sciences or health sciences. *Essential Requirements for the College Research Paper* Ralph H. Lyerly, 1967      **How to Write and Publish Papers in the Medical Sciences** Edward J. Huth, 1982

Abstract Practical concise guidelines are presented to assist medical researchers in preparing publishable papers on their studies. All phases of the publication process are considered, ranging from the conception of the paper, its preparation and seeing it through the editorial and technical review processes to actual publication. The various sub steps of the overall paper preparation publication process are compartmentalized, allowing for selective access by experienced authors or for retrospective referral by any author. The guideline information provided strives to ease the burden of paper preparation and enhance the enjoyment and confidence of prospective authors. A variety of manuscript formats are addressed. *Writing the Five-hundred-word Theme* Lee J. Martin, 1980.
