### *How to Write a Scientific Paper* Jari Saramäki, 2018-11-03

What if writing scientific papers was faster easier and a bit less painful This book provides a step by step top down approach that makes it easier to turn your hard won results into research papers that your fellow scientists want to read and cite I just wrote a rough first draft of a paper during a 3 hour flight and if it wasn't for these teachings this would have taken me days if not weeks Talayeh Aledavood James S McDonnell Postdoctoral Fellow University of Helsinki The book's systematic approach

builds on what I've learned through coauthoring close to 100 research papers with students. You'll learn how to outline your paper from top to down, how to develop your story and how to think about what to write before you write it. You'll also learn how to deal with many issues that writers of science commonly face from the fear of the blank page to dealing with critical reviews. Here's what you get: A complete step by step plan for writing a scientific paper from choosing which results to include to wrapping up the paper in the Discussion section. Concrete actionable and practical advice from a paragraph level template for the Introduction to guidance on preparing plots and figures. Lots of writing tips from placing signposts in your text to shortening and straightening your sentences. This book has been written for the PhD student who is aiming to write a journal article on her research results but it should also be useful to any scientist who has ever found writing difficult. Whatever the stage of your career if you'd like to learn how to write research papers systematically and efficiently this is the book for you. The book includes:

- PART I STORY 1 How To Choose The Key Point Of Your Paper
- 2 How To Choose The Supporting Results
- 3 How To Write The Abstract

- PART IV IT'S NOT OVER YET 18 How To Write The Cover Letter
- 19 How To Deal With Reviews

About the author: I am a professor of computational science and an experienced academic with around 100 published papers. My research is interdisciplinary to say the least: I have studied the social fabric of smartphone users, the genetic structure of ant supercolonies, the connectome of the human brain, networks of public transport, and the molecular biology of the human immune system, to name a few. So one could say that I have a broad range of scientific interests or that I simply cannot choose. But that's exactly the way I like it.

*How to Write and Publish a Research Paper* Lalit Wankhade, 2012-01-01

Publishing research papers has been the need of researchers and academia across the world. Research paper writing is different than article writing. Research papers contribute to the body of scientific knowledge. Research paper has to be published in appropriate journal and hence needs clear understanding from how to select the journal to how to write and organize the paper in a publishable form. This book is a complete guide to writing and publishing a research paper.
