

Fault Finding in Mechatronics

Fault Detection Techniques

- Considering the problems of fault detection with *measurement, control* and *data communication* systems. For details of the *fault-finding* checks required for specific systems or components.

There are a number of techniques that can be used to detect faults:

Replication checks:

- This involves *duplicating* or *replicating* an activity and comparing the results. In the absence of faults it is assumed that the *results should be the same*.
