### **Enabling People with Dementia: Understanding and Implementing Person-Centred Care** Pat Hobson,2019-09-04

This new updated edition challenges the perceptions beliefs and attitudes of professionals working in dementia care settings by drawing on the theory of person centred care. It demonstrates the importance of this theory for interacting with and caring for people with dementia. It also provides an overview of the theory in relation to two other well known theories on dementia and stresses the need to consider the world from the perspective of people with dementia. Moreover the book examines the importance of dementia care environments positive interactions meaningful activities and the concept of personhood which are all essential to improving the health and wellbeing of people living with dementia. In closing it underscores the need to remember that the focus of care should be on maximizing the person's abilities enabling them and promoting person centred care. Given its content and style the book offers a resource that can be read and understood by health and social care professionals alike as well as anyone else caring for someone with dementia including family members and carers.

*Person Centered Medicine* Juan E. Mezzich,W. James Appleyard,Paul Glare,Jon Snaedal,C. Ruth Wilson,2023-04-13

The 21st is being recognized as the Century of the Person particularly in Medicine and Health. Person Centered Medicine as a concept and global programmatic movement developed in collaboration with the World Medical Association World Health Organization International Council of Nurses and 30 other institutions over a decade of annual Geneva Conferences places the whole person as the center of health and as the goal and protagonist of health actions. Seeking the person at the center of medicine has meant a medicine of the person for the person by the person and with the person. Articulating science and humanism it strives for a medicine informed by evidence experience and values and aimed at the restoration and promotion of health for all. The textbook on Person Centered Medicine reviews this perspective as it has evolved to date and its resulting knowledge base. The book structure encompasses an Introduction to the field and four sections on Principles Methods Specific Health Fields and Empowerment Perspectives. Its 42 chapters are authored by 105 clinician scholars from 25 different countries across world regions North America Latin America Europe Africa the Middle East Asia and Oceania. Its vision and goals involve total health for a total person. Ongoing work and upcoming publications would focus on redesigning health systems fit to purpose and integrating ancestral knowledge and wisdom community members self and mutual care advances in medical science and the contributions of health relevant social sectors.

*The State of the Art of Person-Centered Healthcare: Global Perspectives* Brendan McCormack,Vaibhav Tyagi,Tanya McCance ,Claudia Rutherford,2025-12-15

Person centered healthcare is characterized by prioritizing human experience and placing authenticity compassion dignity and humanistic caring principles at the center of healthcare practice. It recognizes a global movement that goes beyond the concept of including service users in decision making but extends this to all persons involved in care delivery. Although past decades have seen significant research efforts in person centered practice advancements are being made every day in generating new

knowledge This Research Topic aims to highlight leading research being undertaken that focuses on advancing knowledge in the theory and practice of person centered healthcare Person centered healthcare practice is vital to achieving a truly holistic system where individual values and beliefs are respected and where healthful cultures can flourish Despite this acknowledgment and a vital movement in healthcare research person centeredness in practice is still misunderstood and often not implemented effectively This is a major gap In this Research Topic we invite emerging research that aims to tackle this through various methodological and contextual lenses We open this invite to researchers around the globe who wish to publish their research relating to the current state and future directions in person centered healthcare practice We invite literature reviews empirical research and commentaries deriving from the following five domain areas of the Person centered Practice Framework PCPF 1 Healthful cultures i How are healthful cultures defined in literature ii What are the factors contributing to achieving healthful cultures iii How do healthful cultures integrate with commonly reported healthcare outcomes etc 2 Person centered processes i What are person centered processes ii how do these interact with each other iii how do these interact with other constructs of the PCPF 3 Prerequisites for person centered practice i What are the important attributes or skills of the practitioner for person centered practice ii how do they interact with one another iii how are they linked to other constructs of the PCPF 4 The person centered practice environment i What are the key features of a practice environment that are conducive to person centered practice ii what are the areas that organizations can focus on to develop their practice environment 5 Macro context i What are the key socio political factors that affect person centered practice ii What role do policymakers play in promoting person centered practice iii cultural differences in person centered practice iv translations and cultural adaptation of measurement tools *Enabling People with Dementia: Understanding and Implementing Person-Centred Care* Pat Hobson, 2025-10-09 This new updated edition draws on the theory of person centred care to challenge the perceptions beliefs and attitudes of professionals working in dementia care settings It shows the importance of interacting with and caring for people with dementia and stresses the need to consider the world from the perspective of people with dementia New chapters in this edition develop on the management of end stage dementia and end of life by underlining the importance of advanced care decisions and planning or of psychosocial and spiritual support New chapters will also help manage distress and changes in behaviour as well as common symptoms associated with end of life in dementia In addition this book studies dementia care environments positive interactions meaningful activities and the concept of personhood to show their significance in improving the health and well being of people living with dementia Finally this book gives a voice to the carers by sharing their experiences of dementia and underscores the need to remember that the focus of care should be on maximizing the person s abilities enabling them and promoting person centred care
