Simone White,Jayne Downey

Limpopodoe Maths Pjune 2014 Grade 1:

Rural Education Across the World Simone White, Jayne Downey, 2021-03-22 This book brings together authors from United States South Africa United Kingdom China Canada and Australia to provide insights and case studies from across a range of contexts to explore the interplay between the notions of rurality innovation and education. The book reveals a hopeful and resilient approach to innovative rural education and scholarship collectively and provides important evidence to speak against an often deficit view of rural education. Three patterns are revealed namely the importance of place attentive strategies the importance of joined up alliances to maximise resources and networks and finally the need to utilize alternative methodologies and frameworks that have a starting point of difference rather than deficit for any rural initiative or approach. By drawing from international examples and responding in innovative ways to rural education challenges this book provides an opportunity to share international insights into innovations interventions and partnerships that promote and support rural education in its broadest sense.
