Teaching Writing to Children in Indigenous Languages Ari Sherris, Joy Kreeft Peyton, 2019-02-18 This volume brings together studies of instructional writing practices and the products of those practices from diverse Indigenous languages and cultures. By analyzing a rich diversity of contexts Finland, Ghana, Hawaii, Mexico, Papua New Guinea, and more through biliteracy, complexity, and genre theories, this book explores and demonstrates critical components of writing pedagogy and development. Because the volume focuses on Indigenous languages, it questions center margin perspectives on schooling and national language ideologies which often limit the number of Indigenous languages taught, the domains of study, and the age groups included.

The Report: South Africa 2014 Oxford Business Group, 2014-12-08 Indeed, since the end of apartheid in 1994, South Africa has become a major diplomatic player both on the African continent as well as further afield. Despite the size of South Africa's economy, the country currently faces a number of major economic challenges. As of the end of July 2014, the unemployment rate was at 25.5% according to data from Statistics South Africa, which was among the highest in the world. While the government's long term development plans are generally highly regarded, delivery and execution has occasionally been problematic. While there are major hurdles that must be cleared given the country's strong institutions and the rapid pace of economic expansion over the past two decades, South Africa should be able to look forward to 20 more years of peace and steady, sustained economic growth.

Whiteness and Stigma in the Workplace Anne Crafford, 2022-08-24 Drawing on theories of whiteness, stigma, identity formation, and identity work, this monograph aims to explore the ways in which racial categories continue to structure the lives of professionals of colour in South Africa. Using a Bourdieusian lens, it draws on personal narratives of professionals in the fields of accounting, engineering, and industrial psychology, examining how stigma and whiteness continue to constrain their identity development in the public, professional, and personal spaces they inhabit. Examining the unique post-Apartheid situation of South Africa, this book will be a valuable reading to scholars interested in the intersection of race, professions, and organisation.
