Routledge Handbook of Ecosystem Services Marion Potschin, Roy Haines-Young, Robert Fish, R. Kerry Turner, 2016-01-22 The idea that nature provides services to people is one of the most powerful concepts to have emerged over the last two decades It is shaping our understanding of the role that biodiverse ecosystems play in the environment and their benefits for humankind As a result there is a growing interest in operational and methodological issues surrounding ecosystem services amongst environmental managers and many institutions are now developing teaching programmes to equip the next generation with the skills needed to apply the concepts more effectively This handbook provides a comprehensive reference text on ecosystem services integrating natural and social science including economics Collectively the chapters written by the world's leading authorities demonstrate the importance of biodiversity for people policy and practice They also show how the value of ecosystems to society can be expressed in monetary and non monetary terms so that the environment can be better taken into account in decision making The significance of the ecosystem service paradigm is that it helps us redefine and better communicate the relationships between people and nature It is shown how these are essential to resolving challenges such as sustainable development and poverty reduction and the creation of a green economy in developing and developed world contexts

Regulation and Regulators after Global Financial Crises Aleksandra Jordanoska, 2024-12-31 This book provides an original theoretically and empirically grounded analysis of regulatory enforcement activism in post crisis periods and the ensuing regulatory interactions It critically addresses the more regulation enforcement agenda relating to financial misconduct in the aftermath of the 2008 financial crisis showing how misconduct was constructed through the enforcement policies and practices of the powerful UK financial conduct regulator and its interactions with the subjects of enforcement proceedings and their legal representatives during a tumultuous time in the financial markets Drawing from interviews with regulators professional intermediaries and markets participants documentary analysis of enforcement decisions and speeches and observations the

volume adopts an interdisciplinary approach grounded in social constructivist perspectives on compliance and deviance regulation theory and socio legal research Through a multi dimensional analytical framework of regulatory enforcement activism that links shifts in regulatory policymaking experimentations with legal powers in information gathering legal and extra legal penalties and individual accountability and the use of enforcement tools in micro level interactions the book documents a more interventionist and punitive post crisis enforcement agenda The findings challenge current thinking in the scandal and reform literature The work argues that despite the increased focus on enforcement it is not necessarily the case that the power has tilted more towards the regulator This fine grained socio legal enquiry makes innovative and timely theoretical contributions to our understanding of the limitations of regulatory activism and regulatory control regulatory relationships the governance of financial markets and broader thinking on regulating corporations and the individuals within them It will appeal to academics researchers regulators and policymakers working in regulation across law criminology sociology and politics
