and German Consumers Silke Kühn, 2010 Diploma Thesis from the year 2004 in the subject Business economics Marketing Corporate Communication CRM Market Research Social Media grade 2 7 University of Duisburg Essen language English abstract A profound shift in the economy is underway the industrial age economy is rapidly giving way to the Internet age economy 1 Four years after the New Economy crash the Internet Economy is booming and hopes that mobile offers will further increase the speed 2 With the number of online sales for goods and services increasing every day 3 online shopping with sales growth rates outpacing traditional retailing purchases has become one of the fastest growing forms of shopping 4 The statement above explains the reason why the term Electronic Commerce has kept both business research and business practice as occupied as barely any other term in the last years 5 Warren D Raisch writes about this shift in the economy that the global development and acceptance of the Internet as the new standard for communication and commerce provides us with a powerful new global Internet based E Business network 6 Realizing that we live in a global marketplace with international trade 7 additionally pushed by the Internet companies face a stronger competition and the need to create more value for customers than their competitors In this context it is important for companies to realize that through the Internet there is a power shift to the customer Furthermore as customers will demand and tolerate only delighting buying experiences it is a necessity to capture and analyze information about buying behavior in the 21st century business 8 When talking about E Commerce which is a part of Electronic Business E Business describing the sale of goods and services via the Internet targeting a mass market 9 the following two areas have to be differentiated Business to Customer B2C E Commerce meaning the settlement of buying contracts between a commercial company and a customer *Introduction to Information Systems* James A. O'Brien, 2000 This work examines a five level framework that is used to describe the stages of information systems development It has been revised to reflect the movement towards enterprise wide business and looks at the major topics covered in a first course Introduction to Electronic Commerce and Social Commerce Efraim Turban, Judy Whiteside, David King, Jon Outland, 2017-04-23 This is a complete update of the best selling undergraduate textbook on Electronic Commerce EC New to this 4th Edition is the addition of material on Social Commerce two chapters a new tutorial on the major EC support technologies including cloud computing RFID and EDI ten new learning outcomes and video exercises added to most chapters Wherever appropriate material on Social Commerce has been added to existing chapters Supplementary material includes an Instructor's Manual Test Bank questions for each chapter Powerpoint Lecture Notes and a Companion Website that includes EC support technologies as well as online files The book is organized into 12 chapters grouped into 6 parts Part 1 is an Introduction to E Commerce and E Marketplaces Part 2 focuses on EC Applications while Part 3 looks at Emerging EC Platforms with two new chapters on Social Commerce and Enterprise Social Networks Part 4 examines EC Support Services and Part 5 looks at E Commerce Strategy and Implementation Part 6 is a collection of online tutorials on Launching Online Businesses and EC Projects with tutorials focusing on e CRM EC Technology Business Intelligence including Data Text and

Web Mining E Collaboration and Competition in Cyberspace the following tutorials are not related to any specific chapter they cover the essentials ec technologies and provide a guide relevant resources p      **Forthcoming Books** Rose Arny,2003

**Decision Support Systems and Intelligent Systems** Efraim Turban,Jay E. Aronson,Ting-Peng Liang,2005 Appropriate for all courses in Decision Support Systems DSS computerized decision making tools and management support systems Todays networked computer systems enable executives to use information in radically new ways to make dramatically more effective decisions and make those decisions more rapidly Decision Support Systems and Intelligent Systems Seventh Edition is a comprehensive up to date guide to todays revolutionary management support system technologies and how they can be used for better decision making In this thoroughly revised edition the authors go far beyond traditional decision support systems focusing far more coverage on Web enabled tools performance analysis knowledge management and other recent innovations The authors introduce each significant new technology show how it works and offer practical guidance on integrating it into real world organizations Examples products services and exercises are presented throughout and the text has been revised for improved clarity and readability New and enhanced coverage includes state of the art data mining OLAP expert system and neural network software revamped coverage of knowledge management and a far greater emphasis on the use of Web technologies throughout Also covered in detail data warehousing including access analysis visualization modeling and support This edition also contains DSS In Action boxes presenting real business scenarios for the use of advanced management support technology Decision Support Systems and Intelligent Systems Seventh Edition is supported by a Web site containing additional readings relevant links and other supplements      **Exploring the Nexus Doctrine In**

**International Tax Law** Ajit Kumar Singh,2021-05-14 In an age when cross border business transactions are increasingly effected without the transference of physical products revenue concerns of states have led to a multitude of tax disputes based on the concept of nexus This important and timely book is the most authoritative to date to discuss one of the major tax topics of our time the question of how taxing rights on income generated from cross border activities in the digital age should be allocated among jurisdictions Demonstrating in prodigious depth that it is the economic nexus of the tax entity or activity with the state and not the physical nexus which meets the jurisdictional requirement the author a leading authority on this area who is a Senior Commissioner of Income Tax and a Member of the Dispute Resolution Panel of the Government of India addresses such dimensions of the subject as the following whether a strict territorial nexus as a normative principle is ingrained in source rule jurisprudence detailed scrutiny of such classical doctrines as benefit theory neutrality theory and internation equity comparative critique of the Organisation for Economic Co operation and Development OECD and United Nation UN model tax treaties whether international law and customary principles mandate a strict territorial link with the source state for the assumption of tax jurisdiction whether the economic nexus based tax jurisdiction and absence of a physical presence breach the constitutional doctrine of extraterritoriality or due process and whether retrospective tax

legislation breaches the principle of constitutional fairness The book offers a politically informed analysis of the nexus principle and balances the dynamics of physical presence and economic nexus standards based on an in depth survey of the historical evolution of judicial pronouncements and international practices in this regard Dr Singh s book exposes an urgently needed missing link in the international source rule literature and takes a giant step towards solving the thorny question of appropriate tax apportionment It sheds brilliant light on the policies states may adopt when signing new tax treaties so that unintended results may be foreseen and avoided Tax practitioners taxation authorities and academic researchers in the field of international tax law and policy will greatly appreciate the book s forthright enhancement of the ability to defend challenges based on the nexus doctrine

**Managing Information Technology in a Global Economy** Information Resources Management Association. International Conference,2001 Today opportunities and challenges of available technology can be utilized as strategic and tactical resources for your organization Conversely failure to be current on the latest trends and issues of IT can lead to ineffective and inefficient management of IT resources Managing Information Technology in a Global Economy is a valuable collection of papers that presents IT management perspectives from professionals around the world The papers introduce new ideas refine old ones and possess interesting scenarios to help the reader develop company sensitive management strategies
