**Saruchera, D., Lautze, Jonathan**

## **Limpopo Physical Sciences Paper September 2014:**

*Drip Irrigation for Agriculture* Jean-Philippe Venot, Marcel Kuper, Margreet Zwarteveen, 2017-07-06 Initially associated with hi tech irrigated agriculture drip irrigation is now being used by a much wider range of farmers in emerging and developing countries This book documents the enthusiasm spread and use of drip irrigation systems by smallholders but also some disappointments and disillusion faced in the global South It explores and explains under which conditions it works for whom and with what effects The book deals with drip irrigation behind the scenes showcasing what largely remain untold stories Most research on drip irrigation use plot level studies to demonstrate the technology s ability to save water or improve efficiencies and use a narrow and rather prescriptive engineering or economic language They tend to be grounded in a firm belief in the technology and focus on the identification of ways to improve or better realize its potential The technology also figures prominently in poverty alleviation or agricultural modernization narratives figuring as a tool to help smallholders become more innovative entrepreneurial and business minded Instead of focusing on its potential this book looks at drip irrigation in use making sense of what it does from the perspectives of the farmers who use it and of the development workers and agencies policymakers private companies local craftsmen engineers extension agents or researchers who engage with it for a diversity of reasons and to realize a multiplicity of objectives While anchored in a sound engineering understanding of the design and operating principles of the technology the book extends the analysis beyond engineering and hydraulics to understand drip irrigation as a sociotechnical phenomenon that not only changes the way water is supplied to crops but also transforms agricultural farming systems and even how society is organized The book provides field evidence from a diversity of interdisciplinary case studies in sub Saharan Africa the Mediterranean Latin America and South Asia thus revealing some of the untold stories of drip irrigation *Joint ventures in the Flag Boshielo Irrigation Scheme, South Africa* van Koppen, Barbara, Tapela, B. N., Mapedza, Everisto, 2018-01-31 **Small reservoirs in Africa: a review and synthesis to strengthen future investment** Saruchera, D., Lautze, Jonathan, 2019-11-04 *Climate Change Strategies: Handling the Challenges of Adapting to a Changing Climate* Walter Leal Filho, Marina Kovaleva, Fátima Alves, Ismaila Rimi Abubakar, 2023-06-01 This book includes information experiences practical initiatives and projects around the subject matter and makes it available to a wide audience It addresses the scientific social political and cultural aspects of climate change impacts and respective solutions in an integrated and coherent way Climate change as a global phenomenon imposes new challenges for survival Extreme weather events including heat waves storms droughts as well as rising sea levels warming oceans and melting glaciers threaten people s livelihoods and communities ecosystems and habitats Furthermore it affects the entire food chain and increases competition for natural resources fuelling socioeconomic tensions The results of the latest IPCC report highlight the urgent need for combating climate change The adaptation measures to be undertaken range across sectors thematic fields and geographical locations Based on this need the book focuses on the high

quality interdisciplinary contributions on the scientific social economic political and cultural aspects of climate change challenges and solutions      Global Degradation of Soil and Water Resources Rui Li,Ted L. Napier,Samir A.

El-Swaify,Mohamed Sabir,Eduardo Rienzi,2022-01-29 This book focuses on soil and water conservation at global scale It is a serious environmental problem that will threaten the socio economic well being of the majority of global population in future The book examines the current situation of land degradation in multiple regions of the world and offers alternative approaches to solve the problems through sharing advanced technologies and lessons learned It provides comprehensive assessment on characteristics level and effect of degradation in different regions It s a highly informative reference both for researchers and graduate students      **Working with indigenous knowledge** Fhumulani M. Mulaudzi,Rachel T.

Lebese,2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research      **Community-based adaptation** Hannah Reid,2017-10-02 Community based adaptation CBA to climate change

is based on local priorities needs knowledge and capacities Early CBA initiatives were generally implemented by non government organisations NGOs and operated primarily at the local level Many used bottom up participatory processes to identify the climate change problem and appropriate responses Small localised stand alone initiatives are insufficient to address the scale of challenges climate change will bring however The causes of vulnerability such as market or service access or good governance also often operate beyond the project level Larger organisations and national governments have therefore started to implement broader CBA programmes which provide opportunities to scale up responses and integrate CBA into higher levels of policy and planning This book shows that it is possible for CBA to remain centred on local priorities but not necessarily limited to work implemented at the local level Some chapters address the issue of mainstreaming CBA into government policy and planning processes or into city or sectoral level plans e g on agriculture Others look at how

gender and children's issues should be mainstreamed into adaptation planning itself and others describe how tools can be applied and finance delivered for effective mainstreaming This book was published as a special issue of Climate and Development

## Unveiling the Magic of Words: A Overview of "**Limpopo Physical Sciences Paper September 2014**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring. Enter the realm of "**Limpopo Physical Sciences Paper September 2014**," a mesmerizing literary masterpiece penned by way of a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book is central themes, examine its distinctive writing style, and assess its profound effect on the souls of its readers.
