Re: Client-Based Service Learning Project- Formal Proposal

Company Name: Lafayette Brewing Co.
Contact Info:
Lafayette Brewing Co.
Address, phone, e-mail

Goals/Mission Statement of the Company:
Greater Lafayette's First and Only True Brew Club.

This is pretty much our company's mission statement. The goals of the Lafayette Brewing Co. are to establish a high class, fun brew house. The Lafayette Brewing Company is very proud of producing fresh beer. They use absolutely no preservatives whatsoever. To make their company have that high class feel, they have established good speakers for sound, great lights, and ample room for dancing. All of these factors are what separates the Lafayette Brewing Co. from other local restaurants.

Intended Audience

The intended audience for this project is the type of customers that the Lafayette Brewing Company would like to attract. Because of LBC's determination to be a higher-class restaurant in the Lafayette community, our intended audience would be students looking for a nice night out, or beer connoisseurs looking to try a local brew. Furthermore, if we limit our advertising campaign to Purdue campus, many faculty and staff would be targeted as well. If we were to expand our advertising outside of Purdue, we would push LBC to local professionals looking for a lunch place, and a local restaurant to take visiting clients and other business trips.

Resources Needed

The resources needed to complete this project will be mostly collaboration with the company to zero in on their intended goal and need. Also important will be the research required to ascertain the cost vs. benefit, and potentially the highest yield demographic, and the best way to advertise to them. Finally, to actually implement our advertising scheme we would need the financial resources to purchase the materials.

Postan, 2013-11-05 Of all the activities of the most neglected century in English History England's trade has received the least attention in proportion to its importance It was obviously in the course of the later Middle Ages and more particularly in the fifteenth century that there took place the great transformation from medieval England isolated and intensely local to the England of the Tudor and Stuart age with its world wide connections and imperial designs It was during the same period that most of the forms of international trade characteristic of the Middle Ages were replaced by new methods of commercial organization and regulation national in scope and at times definitely nationalistic in object and that a marked movement

towards capitalist methods and principles took place in the sphere of domestic trade Yet little has been written concerning English trade in this period First published in 1933 this classic volume goes a long way to fill this gap superbly There is an abundance of material and the writers have compiled a statistical analysis of the Enrolled Customs Account from 1377 1482 which provides an essential measure of the nature volume and movement of English foreign commerce during the period
