**Survey of Tablet Computer Lending Programs in Libraries** Primary Research Group,2014 The 80 page study presents the results of a survey of 42 libraries with tablet lending programs or those just

about to implement one. The report gives detailed data and commentary on how the programs were organized, financed and implemented and their impact on patrons and libraries. The report helps its readers to answer questions such as how many tablets do libraries maintain for loan? Which brands do they prefer and which are they planning to purchase in the future? How much have they spent on their tablet lending programs and plan to spend? Do they load their tablets with apps? If so, how do they choose them? How many tablets are lost to theft, or to negligence or accidents? What is the fine for overdue tablets? What is the length of the lending period? What are the circulation figures for tablets? What has been the impact on other library resources such as a pre-existing laptop lending program? Or on use of the library's eBook collection? Which libraries do they view as models and what advice can they offer to peers? What services or training are offered to library patrons about how to use the tablets? Data in the report is broken out by library type (public library, public college, private college, special library) by size of library, staff and size of stock of tablet loaned and other variables.

*Mobile Forensics – Advanced Investigative Strategies* Oleg Afonin, Vladimir Katalov, 2016-09-30

Master powerful strategies to acquire and analyze evidence from real life scenarios.

**About This Book:** A straightforward guide to address the roadblocks face when doing mobile forensics. Simplify mobile forensics using the right mix of methods, techniques and tools. Get valuable advice to put you in the mindset of a forensic professional regardless of your career level or experience.

**Who This Book Is For:** This book is for forensic analysts and law enforcement and IT security officers who have to deal with digital evidence as part of their daily job. Some basic familiarity with digital forensics is assumed but no experience with mobile forensics is required.

**What You Will Learn:**

- Understand the challenges of mobile forensics.
- Grasp how to properly deal with digital evidence.
