How To Write User Documentation:

How To Write Usable User Documentation Edmond H. Weiss, 1991-06-26 This popular handbook presents a step by step method for clearly explaining a product system or procedure. The easy to follow text packed with examples and illustrations explains the unique demands of this form of writing and shows how to set up the best user model. The book covers developing a modular outline and storyboard generating the draft, revising, developing a formal usability test and supporting and updating user documentation. Also included are a glossary of terms, a listing of books and periodicals for additional information and an index.

How to Write Usable User Documentation E.H. Weiss, 1985 *Writing Better Computer User Documentation* R. John Brockmann, 1986 Helping data processing professionals to write accurate, clear computer documentation, this book presents a systematic approach to writing manuals, online documents, system messages, menus and on line tutorials. Covers the process of creating these materials from the inception of the documentation project to its revision after publication. Addresses the rapidly changing role of the documentation writer and the move toward manual less software. Also provided are extensive reference sections at the end of each chapter.

Writing Plain Instructions Marc Achtelig, 2012
Users want manuals that are easy to read with short sentences, simple words and unambiguous instructions. Unfortunately, writing plain language is much more difficult than writing overblown instructions that only an expert can understand. Writing complex texts is simple, writing simple texts is complex. This book shows you how to write simple user assistance rather than complex user annoyance. As it's a book about stating your message clearly, it also states its own messages clearly. It's free of boring theory and free of highbrow grammar terms and gives you clear recommendations and catchy examples that you can easily remember and apply to your own work. Topics covered: General technical writing principles that make your texts plain, simple and easy to understand. On the topic level: Rules for writing, Concept topics, Task topics and Reference topics. On the paragraph level: Rules for writing the standard elements that form a topic such as headings, subheadings, procedures, lists, tables, warnings, notes, tips, examples, cross references and links. On the sentence level: Rules for building plain and unambiguous sentences. On the word level: Recommendations for using simple words, Spelling and punctuation, FAQ, Grammar and word choice. FAQ, Standard terms and phrases, Audience, technical writers, developers, marketing professionals, product managers.
