## **Hebraic Fundamental Steps To Salvation:**

**The Name of God in Jewish Thought** Michael T Miller, 2015-10-16 One of the most powerful traditions of the Jewish fascination with language is that of the Name. Indeed, the Jewish mystical tradition would seem a two millennia long meditation on the nature of name in relation to object and how name mediates between subject and object. Even within the tide of the 20th century's linguistic turn, the aspect most notable in the almost entirely secular Jewish philosophers is that of the personal name, here given pivotal importance in the articulation of human relationships and dialogue. *The Name of God in Jewish Thought* examines the texts of Judaism pertaining to the Name of God, offering a philosophical analysis of these as a means of understanding the metaphysical role of the name generally in terms of its relationship with identity. The book begins with the formation of rabbinic Judaism in Late Antiquity, travelling through the development of the motif into the Medieval Kabbalah, where the Name reaches its grandest and most systematic statement, and the one which has most helped to form the ideas of Jewish philosophers in the 20th and 21st Century. This investigation will highlight certain metaphysical ideas which have developed within Judaism from the Biblical sources and which present a direct challenge to the paradigms of western philosophy. Thus, a grander subtext is a criticism of the Greek metaphysics of being which the west has inherited and which Jewish philosophers often subject to challenges of varying subtlety; it is these philosophers who often place a peculiar emphasis on the personal name, and this emphasis depends on the historical influence of the Jewish metaphysical tradition of the Name of God. Providing a comprehensive description of historical aspects of Jewish Name Theology, this book also offers new ways of thinking about subjectivity and ontology through its original approach to the nature of the name, combining philosophy with text critical analysis. As such, it is an essential resource for students and scholars of Jewish Studies.

**Philosophy and Religion**     **Biblical and Theological Foundation of the Family** Joseph C. Atkinson, 2014 *Biblical and Theological Foundations of the Family* argues that the family has a constitutive nature and a specific theological purpose which God reveals in the church. Joseph Atkinson investigates the principles of the doctrine of Creation which inform the family from the beginning, the vital way the family functions as carrier of the covenant in the Old Testament, and the critical aspects of Hebraic anthropology, especially corporate personality upon which the family is based. This book provides a counter argument to the view of the human person developed in modern thought and which prevails today: the autonomous self-determining individual with no essential nature or social or ecclesial aspects. Atkinson discusses the constitutive corporate nature of the human person and how the covenantal family of the Old Testament finds its fulfillment in Jesus Christ. The author does so by investigating how baptism transforms the family and gives it an ecclesial identity, making it a domestic church. He then examines the development of the family's ecclesial nature in the church fathers and the providential re-appropriation of the family's inner ecclesial identity in the teachings of the Second Vatican Council and in subsequent magisterial teachings. This ground-breaking work establishes a solid biblical and theological foundation on which a theology

of the family can be constructed It thus fills a critical lack in the current literature on the family The wide range of sources including Jewish Catholic Orthodox and Protestant give this work a genuine ecumenical dimension Biblical and Theological Foundations of the Family will become indispensable for anyone wanting to engage in serious study of the structure and meaning of the family and its place in the salvific will of God **Judaism** ,1965 **Theological Studies** William James McGarry,John Courtney Murray,1965 *Religion in Life* John Baillie,Lucius Hatfield Bugbee,Charles Kendall Gilbert,1957 Includes section Book reviews **The Spiritual Road** Richard A. accusations of divided loyalty During the 1950s and 1960s King staged demonstrations and boycotts that drew the mass media to him The attention provided him the platform to preach Christian love as a political foundation in direct opposition to white supremacy Falwell started his own church which he developed into a mass media empire He then leveraged it during the late 1970s through the 1980s to influence the Republican Party by exhorting his audience to not only ally with religious conservatives around issues of abortion and the traditional family but also to vote accordingly Sheen King and Falwell were so successful in popularizing their theological ideas that they won prestigious awards had access to presidents and witnessed the results of their labors However Patterson argues that Falwell s efforts broke with the longstanding refusal of religious public figures to participate directly in partisan affairs and thereby catalyzed the process of politicizing religion that undermined the Judeo Christian consensus that formed the foundation of American politics     **Socrates and Jesus** Michael E.
