**False Idol** Gene Healy, 2012-10-17

In the waning days of the Bush administration the Cato Institute published Gene Healy's *The Cult of the Presidency* America's Dangerous Devotion to Executive Power which argued that the demands we place on the presidency have turned it into a constitutional monstrosity too powerful to be trusted and too weak to fulfill all the demands we invest in it George Will called the book the year's most pertinent and sobering public affairs book and the Economist noted that it was written while Barack Obama's career was still on the launch pad yet it describes with uncanny prescience the atmosphere that allowed him to soar Now with the 2012 presidential election upon us in his timely new ebook *False Idol* Barack Obama and the Continuing Cult of the Presidency Healy examines the causes and consequences of a presidential cult President Obama claims broad power over the U.S. economy fires the CEO of General Motors extends federal control over Americans health insurance plans claims the power to launch wars without congressional authorization and assassinate American citizens abroad far from any battlefield *False Idol* demonstrates that the vision of the presidency Obama embodies has led to a dangerous concentration of power in an office primarily designed for faithful execution of the laws Sharply focused and rigorously researched *False Idol* is also a highly compelling examination of our national fixation with being led comforted and delivered by a presidential savior

Decades of longing for a national redeemer have forged an institution that promises everything and guarantees nothing save public frustration and the steady growth of federal power A constitutional restoration can only begin Healy shows when Americans turn away from false idols and false hope [Overview of the Persian Gulf War, 1990](#) Earle Rice Jr.,2020-02-04

Mochizuki, 2003-07-29 In describing their comprehensive proposal for negotiations with North Korea OHanlon and Mochizuki exhibit the strategic creativity and analytical depth badly needed by United States policy makers dealing with this strange dangerous place Ash Carter former Assistant Secretary of Defense and Ford Foundation Professor of Science and International Affairs John F Kennedy School of Government Harvard University IN EARLY 2002 in his fateful state of the union address President Bush described North Korea as being a member of the Axis of Evil Since then the US has gone to war with Iraq and the world now wonders what the future of Bush's preemption policy will bring Many of the nations top experts feel that North Korea is a more imminent threat than Saddams Iraq was They have a nuclear program a million man army and missiles to deploy and export In Crisis on the Korean Peninsula Michael OHanlon a Senior Fellow at Brookings and visiting lecturer at Princeton and Mike Mochizuki endowed chair in Japan US Relations at G W University not only examine this issue in detail but also offer a comprehensive blueprint for diffusing the crisis with North Korea Their solution comes in the form of a grand bargain with North Korea Accords could be negotiated step by step however they need to be guided by a broad and ambitious vision that addresses not only the nuclear issue but also the conventional forces on the hyper militarized peninsula and the ongoing decline of the North Korean economy
