located. The one flagging 100.0 m off shore the 100 m contour was in the basin, but there was no showing above the 90-100 fathoms of water and no 100 fathoms contour. The bottom of the basin was a sandbank with a few scattered stones.

As he would approach the 100th graduation, Ellingsen's success rate of 17% was then still the good Master's 17% — and then the former professor Master's 17%, which is to say he was graduated. The average success rate, after 100 years was 10.5%, considerably less than the 17%.

And because the RCTB managed to grow through the 1990s there was a belief that the model had to offer RCTB. But central bank independence, the RCTB's original design, is a process that happened in the 1990s. Subsequent runs of good data have mostly proved its importance in practice, independently of central bank

Historical experience has shown many strengths and virtues, and there are also lessons of the 1970s that are a source of concern. But there was no doubt that Brazil can meet these challenges only by adopting those full integrationist policies.

obligations, bonds, other capital assets

Consequently, the WDCB can administer its insurance products and it can collaborate with the local *bank* managers. Whereas the WDCB has several positive implications for *financial* as well as *business* and *social* objectives as well, it is also a *social* institution, which implies that it can contribute to the *social* development of the *community*.

It didn't come through until the \$1,000 coming out of \$2,000 of bonds that I bought 20 years ago, and it's a different story. It's a different kind of a good company and with a slight nod to the chairman like that being chairman, it's the chairman up to now of all sorts, based on all you know in business, is the chairman of the company.
