between communities and movements such as Occupy the World Social Forum and alternative economies Globalization
Development and Social Justice advances the proposition that another globalization is not only possible but already exists It
demonstrates that there are multiple pathways towards development with social justice and argues that enabling
propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal
globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of
global and local processes The book features case studies and examples of diverse economic practice and innovative
emergent political forms from the Global South and North These case studies are located in the informal social economy and
community development as well as everyday practices from prefigurative politics to community cooperatives and
participatory planning This book makes an important contribution to debates about the prospects for and practices of a
transformative grassroots globalization and to critical debates about globalization and development strategies It will be of
