*Abstract*

*By standards of economic efficiency which you will elaborate, what is wrong with inflation? What is wrong with unemployment? What is the inter-relationship between inflation and unemployment? Is there any important short-run versus long-run distinction here? What can national economic policy do to solve these problems? Is the effect of such policy sustainable? At each stage of the argument, show what costs are associated with what benefits.*

**Policy Coordination Instrument –**

**Updated Operational Guidance Note** International Monetary Fund. Strategy, Policy, & Review Department, International Monetary Fund. Legal Dept., 2024-04-25 This note provides updated general guidance on the use of the Policy Coordination Instrument PCI. The PCI is a non-financing instrument designed for countries that at the time of the PCI request are seeking to unlock financing from sources other than the Fund and/or to demonstrate a commitment to a reform agenda. Since its establishment in 2017 as part of the Fund's work on the Global Financial Safety Net, the PCI has been used by several members. These experiences helped establish and refine best practices which are reflected in this updated operational guidance note together with changes to the PCI policy approved by the Executive Board on October 4, 2023. The note covers operational issues in a broad range of areas such as purpose, objectives, eligibility, modalities, applicability of UFR, related and other relevant policies, design of a PCI-supported program, conditionality, framework, review schedule, and a comparison with other lending instruments. The note is an aid to the implementation of the PCI policy and its underlying principles. If there is any instance in which a provision of the guidance note or its implementation conflicts with the policy approved by the Board, the PCI policy shall prevail.

[Staff Guidance Note on the Application of the Joint Fund-Bank Debt Sustainability Framework for Low-Income Countries](#) International Monetary Fund, 2010-01-25. The objective of the joint Fund-Bank debt sustainability framework for low-income countries is to support LICs in their efforts to achieve their development goals without creating future debt problems. Countries that have received debt relief under the Heavily Indebted Poor Countries HIPC Initiative and the Multilateral Debt Relief Initiative MDRI need to be kept on a sustainable track. Under the framework, country DSAs are prepared jointly by Fund and Bank staff with close collaboration between the two staffs on the design of the macroeconomic baseline, alternative scenarios, the debt distress rating, and the drafting of the write-up.
