The MDS Coordinator holds one of the key positions in a long term care facility and works closely with the entire interdisciplinary team. Looking at the broad picture and spectrum of care, she ensures and enhances the quality of care. The reimbursement of the facility depends on the accuracy and consistency of her documentation.

*Principles of Long-term Health Care Administration* Peter J. Buttaro, 1999. With this book, the author offers information about the core principles of long term care administration. The purpose is to explain basic concepts and information essential to long term care administration. The training materials are to be used by long term care administrators. Areas associated with long term management are covered, such as regulations, finance, staffing, personnel, and medical care. This book is written in an easy to follow format and is referenced well for the original regulatory sources. Principles of management, including personnel management theories of management and finance, are very well covered. The chapter on medical care in the nursing home is very dated, but since the intended audience of the book would not be responsible for medical management, this may not be of great consequence. This is a basic review of principles relative to long term care. The format is easy to follow and this would be a useful reference text or review text for those in long term care administration.
