Committee,2017 The scope and purpose of this SAE Recommended Practice is to provide a standard pattern or sequence for
the manual control of automatic transmissions in passenger cars and light duty trucks This generally refers to left hand drive
mechanical shift applications This document is published as Stabilize The J915 content is not fully compliant with current
industry developments and as such may require a different standard The content within the J915 standard relies on Federal
Motor Vehicle Safety Standards FMVSS 102 and 114 Portions of the J915 standard that are unique may not represent current
common practices within the user community When this standard was initially published it reflected a common philosophy
towards automatic transmission manual controls sequence Since that time changing technologies like self driving cars

satellite controlled driven cars and electric cars may have led members of the user community to have potentially divergent methods for manual controls sequences of automatic transmissions beyond the minimum requirements specified within the applicable Federal Motor Vehicle Safety Standards As a result a different standard may be required
