Globalized Authoritarianism Koenraad Bogaert,2018-03-20 A rich investigation into Morocco s urban politics Over the past thirty years Morocco s cities have transformed dramatically To take just one example Casablanca s medina is now obscured behind skyscrapers that are funded by global capital and encouraged by Morocco s monarchy which hopes to transform this city into a regional leader of finance and commerce Such changes have occurred throughout Morocco Megaprojects are redesigning the cityscapes of Rabat Tangiers and Casablanca turning the nation s urban centers into laboratories of capital accumulation political dominance and social control In Globalized Authoritarianism Koenraad Bogaert links more abstract questions of government globalization and neoliberalism with concrete changes in the city Bogaert goes deep beneath the surface of Morocco s urban prosperity to reveal how neoliberal government and the increased connectivity engendered by global capitalism transformed Morocco s leading urban spaces opening up new sites for capital accumulation creating enormous class divisions and enabling new innovations in state authoritarianism Analyzing these transformations he argues that economic globalization does not necessarily lead to increased democratization but to authoritarianism with a different face to a form of authoritarian government that becomes more and more a globalized affair Showing how Morocco s experiences have helped produce new forms of globalization Bogaert offers a bridge between in depth issues of Middle Eastern studies and broader questions of power class and capital as they continue to evolve in the twenty first century

Bihar and Mithila J. Albert Rorabacher,2016-09-13 The world has become obsessed with the Western notions of progress development and globalization the latter a form of human and economic homogenization These processes through the aegis of the United Nations are comparatively monitored Those nations deemed to be lagging behind are then provided with foreign aid and developmental assistance For nearly seventy years India has sought its place in this

global endeavour yet even today abject poverty and backwardness can be observed in districts in almost every state with the highest concentration of such districts found in the state of Bihar and a cultural enclave known as Mithila Development in India has been elusive because it is difficult to define and because the Western concepts of development and progress have no absolute equivalents within many non Western settings As a consequence development programmes often fail because they are unable to ask the right questions but equally important is the political economy derived from foreign aid For politicians there is no long term benefit to be derived from successful development In general foreign aid only serves to corrupt governments and politicians and in the end does very little for those who need help The struggling states of Bihar and Mithila serve as extreme examples of India s problems Development here has been thwarted by a hereditary landed aristocracy supported by religion casteism custom social stratification tradition and patterns of behaviour that can be traced back millennia In turn all these have been masterfully manipulated by co opted politicians who have turned politics into a veritable art form as this volume comprehensively demonstrates *Handbook on the Globalisation of Agriculture* Guy M. Robinson, Doris A. Carson, 2015-06-29 This Handbook provides insights to the ways in which globalisation is affecting the whole agri food system from farms to the consumer It covers themes including the physical basis of agriculture the influence of trade policies the nature of globalis *The Palgrave Handbook of Contemporary Heritage Research* E. Waterton, S. Watson, 2015-01-28 This book explores heritage from a wide range of perspectives and disciplines and in doing so provides a distinctive and deeply relevant survey of the field as it is currently researched understood and practiced around the world

Urbanization and Development ,2016 The analysis of urban development of the past twenty years presented in this maiden edition of the World Cities Report shows with compelling evidence that there are new forms of collaboration and cooperation planning governance finance and learning that can sustain positive change The Report unequivocally demonstrates that the current urbanization model is unsustainable in many respects It conveys a clear message that the pattern of urbanization needs to change in order to better respond to the challenges of our time to address issues such as inequality climate change informality insecurity and the unsustainable forms of urban expansion Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events **National**

trois mois pour leur supposée appartenance ethnique. Si l'opération Turquoise permit de sauver plusieurs milliers de Rwandais, la mise en cause du rôle de la France avant pendant et l'issue du génocide a grandement fragilisé sa capacité d'influence sur son ancien partenaire. Pourtant, depuis 1994, plus d'une vingtaine d'interventions militaires françaises ont été organisées sur le continent africain. De durées et de natures diverses, ces implications françaises dans des situations de crise et de conflit ont bénéficié d'une visibilité très inégale. Si les opérations Licorne en Côte d'Ivoire ou Serval au Mali ont largement couvertes les missions Boali en République centrafricaine, Aramis au Cameroun ou Croix du Sud au Niger n'ont suscité que peu d'intérêt. L'inégale médiatisation des conflits africains constitue le point de départ de cette enquête. Comment expliquer l'attention soutenue dont bénéficient certaines guerres tandis que d'autres sont totalement ignorées ? Derrière la permanence d'un discours figé sur l'Afrique, l'ouvrage met en relief les mutations des pratiques des reporters de guerre, l'heure du tournant numérique, l'évolution des stratégies des rédactions en chef, ainsi que la professionnalisation croissante des acteurs impliqués sur ces terrains d'opération : belligérants armés français, humanitaires.
