Em Big Hoom:

Em and the Big Hoom Jerry Pinto, 2014-06-24 The devastatingly original debut novel from a winner of the Windham Campbell Prize for Fiction Profoundly moving I cannot remember when I last read something as touching as this Amitav Ghosh author of *The Glass Palace* First published by a small press in India Jerry Pinto's debut novel has already taken the literary world by storm Suffused with compassion humor and hard won wisdom *Em and the Big Hoom* is a modern masterpiece and its American publication is certain to be one of the major literary events of the season Meet Imelda and Augustine or as our young narrator calls his unusual parents *Em and the Big Hoom* Most of the time *Em* smokes endless beedis and sings her way through life She is the sun around which everyone else orbits But as enchanting and high spirited as she can be when *Em*'s bipolar disorder seizes her she becomes monstrous sometimes with calamitous consequences for herself and others This accomplished debut is graceful and urgent with a one of a kind voice that will stay with readers long after the last page

Narrative Art and the Politics of Health Neil Brooks, Sarah Blanchette, 2021-03-15 As countless alterations have taken place in medicine in the twenty first century so too have literary artists addressed new understandings of disease and pathology Disability studies fat studies mad studies end of life studies and critical race studies among other fields have

sought to better understand what social factors lead to pathologizing certain conditions while other variations remain normalized While recognizing that these scholarly approaches often speak to identities with radically different experiences of pathologization this collection of essays is open to all critical engagements with narratives of health in order to facilitate the messiness of cross disciplinary collaboration and interdisciplinarity As scientific advances provide insight into a wide range of well being issues and help extend life it is vital that we come to question the very categories of healthy and unhealthy This collection brings together analyses of cultural productions which probe those categorizations and suggest new psychological and philosophical understandings which will help better apply and guide the knowledge being rapidly developed within the life sciences Right of health is a widely accepted human right but in applying a right to healthcare what care and what sort of health are less universally agreed upon The contributors share an interest in addressing who controls answers to the questions of how do we define a healthy body and a healthy life and what are the political forces that influence our definitions of health
