

## STEP-BY-STEP EXERCISE: STANDING FIGURE

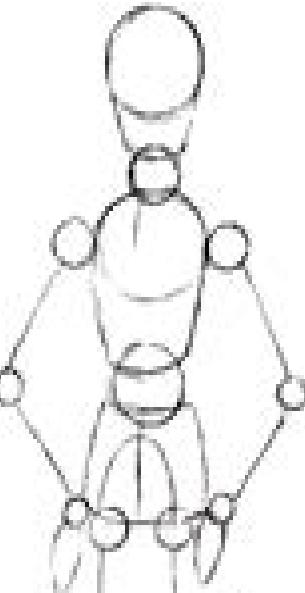

Take your time practising the basic drawing techniques on these two pages and eventually you'll get the result you want. You'll soon learn to create a finished figure.

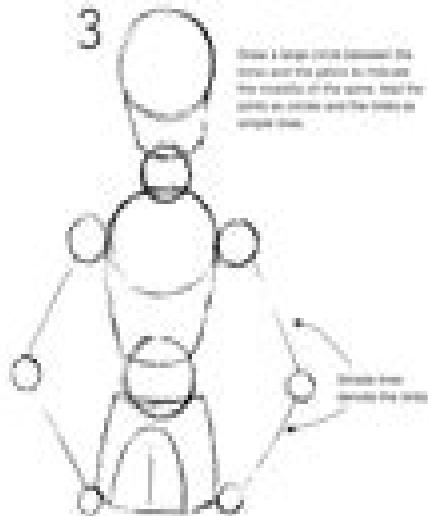

Start with a circle for the head, then a vertical line for the body and another circle for the base or hips of the torso.

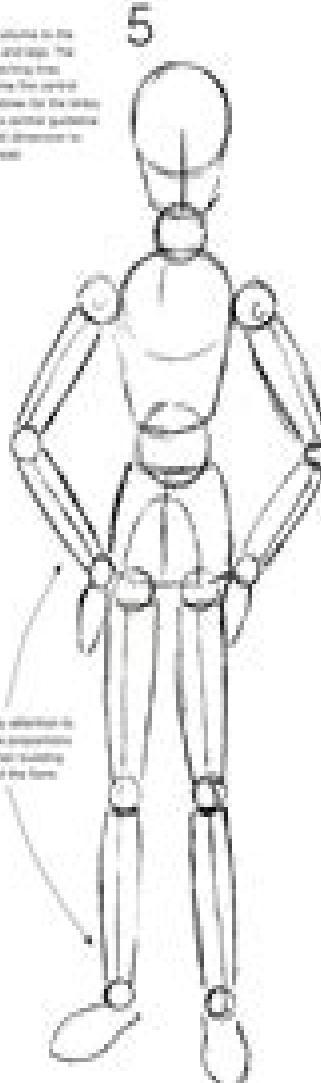

Draw on and for the upper body first those two circles for the shoulder points. The hand positions are simple circles.

Draw a large circle between the torso and the legs to indicate the weight of the torso. Hold the torso as vertical and the legs as upright.

Draw circles for the feet, toes, and knees. Then draw curved lines from the feet to the base of the legs.

Add circles to the torso and legs. The torso has two circles. The torso position for the upper body is correct, giving it more dimension to the form.

Continue to shade and draw more lines, defining movement in the figure.

The shoulder position gives the drawing depth.

The lower shoulder and legs define the body in perspective.

## Guide To Figure Drawing:

*Figure Drawing* Richard G. Hatton, 2010-11-18 Accessible guide approaches figure drawing from a draftsman's perspective. Covers all aspects of sketching the human form with 377 figures depicting nudes of both sexes and all ages from many angles. *Figure Drawing* Jake Spicer, 2021-07-29 Figure Drawing is structured like an art school course and is every bit as rewarding. Artists and Illustrators Informative and instructive this comprehensive guide will give you all the tools you need to draw the human figure from life and from a screen. While many books focus on just one aspect of figure drawing this manual unites the skills of observation expression and understanding in one coherent approach. Beginning with the key principles of observation Figure Drawing will help you to build a strong foundation of skills to make well observed proportionally accurate drawings. As the book progresses you will explore processes and exercises that move beyond the purely observed to express the gesture form and substance of your model. Photographic and illustrative examples throughout the book support your learning at every step. Clear step by step tutorials provide a practical understanding of the key materials skills and ideas in figure drawing. A comprehensive anatomical reference section broken down into manageable zones deepens your knowledge of the human form. The book is a Swiss bound paperback designed to lie flat when open and in use.

*The Artist's Complete Guide to Figure Drawing* Anthony Ryder, 1999-06-01 Many of us want to learn how to draw. But as artist Anthony Ryder explains it's much more important to learn what to draw. In other words to observe and draw what we actually see rather than what we think we see. When it comes to drawing the human figure this means letting go of learned ideas and expectation of what the figure should look like. It means carefully observing the interplay of form and light shape and line that combine to create the actual appearance of human form. In *The Artist's Complete Guide to Figure Drawing* amateur and experienced artists alike are guided toward this new way of seeing and drawing the figure with a three step drawing method. The book's progressive course starts with the block in an exercise in seeing and establishing the figure's shape. It then builds to the contour a refined line drawing that represents the figure's silhouette. The last step is tonal work on the inside of the contour when light and shadow are shaped to create the illusion of form. Separate chapters explore topics critical to the method: gesture which expresses a sense of living energy to the figure; light which largely determines how we see the model and form which conveys the figure's volume and mass. Examples step by step and special tips offer helpful hints and practical guidance throughout. Lavishly illustrated with the author's stunning artwork *The Artist's Complete Guide to Figure Drawing* combines solid instruction with thoughtful meditations on the art of drawing to both instruct and inspire artists of all levels.
