

# 8 STEPS TO PREVENT HEART DISEASE AND STROKE

These key factors can help you live a longer, healthier life and reduce your risk of heart disease and stroke. They're part of an overall healthy lifestyle and prevention approach you can build with your health care team (doctors, nurses, pharmacists and other professionals).

## 1. Know your risk

- If you're 40-75 years old and have never had a heart attack or stroke, use our Check. Change. Control. Calculator™ to estimate your risk of a cardiovascular event in the next 10 years.
- Certain factors can increase your risk, such as smoking, kidney disease or family history. Many risk factors can be improved with lifestyle changes.

## 6. Manage conditions

Last for the inevitable comparison of this current edition of Tintinalli's Emergency Medicine with other available emergency medicine textbooks available in my opinion Tintinalli's still comes out on top. It is more concise and easier to read than some yet it covers the breadth of emergency medicine practice more comprehensively than others. Just as previous editions did the seventh presents all of the most pertinent and up to date information in a well organized format that is comprehensive yet easy to read. That and many of the attractive new features in this current edition will ensure its place on my bookshelf for years to come. *JAMA*    An Introductory Guide to EC Competition Law and Practice Valentine Korah, 1994    *The Crisis*, 1993-11 The Crisis founded by W E B Du Bois as the official publication of the NAACP is a journal of civil rights history, politics and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color.
