Faut-il Abolir Le Cumul Des Mandats:

Political Representation in France and Germany Oscar W. Gabriel, Eric Kerrouche, Suzanne S. Schüttemeyer, 2018-06-28 Notwithstanding its contemporary critics political representation remains at the core of democratic politics Based on a comparative research project that gathered data from observations surveys experiments and expert interviews this book examines the process and the quality of political representation in France and Germany from a dual perspective First it analyzes MPs behavior during their district activities Second it investigates the perceptions and evaluations of the represented the French and German citizens In ten chapters different facets of MPs activities as well as citizens attitudes are comparatively investigated The book is relevant for Politics scholars and practitioners at national parliaments to better understand representative democracies and it may also contribute to improve representation itself

The French Parliament and the European Union Olivier Rozenberg, 2019-07-12 This book explores how the European Union has changed the French Parliament since 1992 It supports the view that the institutional adaptation of both assemblies to European affairs is largely superficial as it lacks a genuine involvement from members of parliament Nevertheless the role of backbenchers has changed in the context of European integration New ways of behaving thinking and representing have emerged From specialized representatives to constituency members from presidential aspirants to Eurosceptic sovereigntists French national parliamentarians have adapted differently to the EU Far beyond the sole scrutiny of European draft legislation the book provides a comprehensive map of this changing environment It supports the view that the process has been driven by the search for day to day emotional gratifications rather than utilitarian strategies Gendered Electoral Financing Ragnhild L. Muriaas, Vibeke Wang, Rainbow Murray, 2019-06-19 Illustrated by in depth empirical research from six country studies Gendered Electoral Financing Money Power and Representation in Comparative Perspective is the first cross regional examination of the nexus between money gender and political recruitment across the world Money is assumingly one of the greatest barriers to women in the political recruitment process The financial disadvantage of women is expected to constitute an obstacle for women s entry into politics everywhere and especially in developing countries where women s socio economic status is disproportionately low relative to men s This line of reasoning has caused a global upswing in both candidate and party directed financial schemes introduced to enhance gender balance in political office This book develops a typology of different kinds of gendered electoral financing schemes and builds theories about its causes and consequences By comparing how gendered electoral financing affects political recruitment processes in both established and emerging democracies the authors identify whether and how the funding mechanisms incentivize a shift in political behavior Gendered Electoral Financing is a timely informative and well written book that does an excellent job of explaining in language accessible to students and researchers alike the cost of elections gender imbalance in political office and the effects of financial incentive mechanisms to increase women s representation in politics *Policy Analysis in France* Charlotte

Halpern, Patrick Hassenteufel, Philippe Zittoun, 2018-01-03 Policy analysis in France lays the foundation for a more systematic understanding of policy analysis in the country In doing so the volume discusses the role of the State and its restructuring processes of government and governance and State Society relationships and policies as both a process and an outcome Through 18 chapters contributions focus on policymakers their practices ideas and discourses how they engage in sustained relationships with a large variety of market and society actors and the concrete devices they use in order to make policy objectives operational This is a comprehensive study of policy analysis in France that will be valuable to academics and postgraduate students researching and studying a range of policy and public management areas OECD Economic Surveys: France 2013 OECD, 2013-03-19 OECD's 2013 Economic Survey of France examines recent economic developments policies and prospects and includes special chapters covering taxes and transfers and the economic situation of young people

Faut-il abolir le cumul des mandats ? Laurent Bach, 2012 La 4e de couverture indique Le cumul d'un mandat électif national avec un mandat local est encore aujourd'hui la règle l'Assemblée nationale en France depuis trente ans on observe manifestement malgré de nombreuses tentatives l'échec de modifier de manière décisive sur ce sujet partir d'une analyse empirique des résultats aux élections et du travail des députés depuis 1988 Laurent Bach remet en cause les prémisses de ce débat Il démontre que la détention d'un mandat local ne donne aucun avantage réel lors des élections législatives En revanche nos institutions encouragent plus qu'ailleurs les députés à développer leur implantation locale ce qui en fait des candidats naturels lors des élections municipales cantonales et régionales De plus il y a une forte propension au cumul des mandats en dépit des contraintes de temps et d'organisation que cette pratique entraîne Cette situation a un coût les députés qui cumulent sont nettement moins impliqués dans les débats nationaux et concentrent leurs interventions sur les sujets touchant aux collectivités locales C'est pourquoi une régulation est nécessaire l'évidence les citoyens doivent pouvoir accéder plus simplement au contenu détaillé de l'activité des parlementaires Surtout il faut imposer enfin le mandat unique pour nos députés **Le nouvel observateur**, 1997

Qui sont les députés français Olivier Costa, Eric Kerrouche, 2007 Acteurs incontournables de la vie politique française les députés forment des lites en définitive mal connues L'affaiblissement du Parlement par la Constitution de 1958 la présidentialisation du régime français la décentralisation et l'intégration européenne ont en effet attiré l'attention que leur portaient citoyens médias et scientifiques Cet ouvrage apporte un éclairage nouveau et répond aux questions suivantes sont-ils des citoyens comme les autres Que font-ils exactement Qu'est-ce qui gouverne leurs comportements et leurs discours Quelle est leur influence Forts d'une typologie et de données quantitatives et qualitatives inédites les auteurs décrivent des entrepreneurs politiques très organisés travaillant en équipe et assumant plusieurs rôles au niveau local et national Ils mettent en évidence la professionnalisation de la vie politique et la pratique du cumul des mandats dans l'espace et dans le temps
