*Ferguson: An Essay on the History of Civil Society* Adam Ferguson, 1996-02-01 Adam Ferguson's Essay on the History of Civil Society first published in 1767 is a classic of the Scottish and European Enlightenment Drawing on such diverse sources as classical authors and contemporary travel literature Ferguson offers a complex model of historical advance which challenges both Hume's and Smith's embrace of modernity and the primitivism of Rousseau Ferguson combines a subtle analysis of the emergence of modern commercial society with a critique of its abandonment of civic and communal virtues Central to Ferguson's theory of citizenship are the themes of conflict play political participation and military valour The Essay is a bold and novel attempt to reclaim the tradition of active virtuous citizenship and apply it to the modern state
