Gcse Edexcel2015 Chemistry:

Addressing Special Educational Needs and Disability in the Curriculum: Science Marion Frankland,2017-05-18 The SEND Code of Practice 2015 reinforced the requirement that all teachers must meet the needs of all learners This topical book provides practical tried and tested strategies and resources that will support teachers in making science lessons accessible and exciting for all pupils including those with special needs The author draws on a wealth of experience to share her understanding of special educational needs and disabilities and show how science teachers can reduce or remove any barriers to learning Offering strategies that are specific to the context of science teaching this book will enable teachers to help all students develop their evidence gathering skills and aid their scientific discovery by involving the use of all of the senses and structuring tasks appropriately create a supportive environment that maximises learning opportunities plan the classroom layout and display to enhance learning use technology to adapt lessons to the needs of individual pupils successfully train and fully use the support of their teaching assistants An invaluable tool for continuing professional development this text will be essential for teachers and their teaching assistants seeking guidance specific to teaching science to all pupils regardless of their individual needs This book will also be of interest to SENCOs senior management teams and ITT providers In addition to free online resources a range of appendices provide science teachers with a variety of writing frames and activity sheets to support effective teaching This is an essential tool for science teachers and teaching assistants and will help to deliver successful inclusive lessons for all pupils

Cognitive Development from a Strategy Perspective Patrick Lemaire,2017-09-21 Cognitive Development from a Strategy Perspective recognises the outstanding scientific legacy of Robert S Siegler as a pioneer of modern research on cognitive development throughout the lifespan This volume presents a collection of essays written by leading scholars in the field using cutting edge research to illustrate how Siegler s work and ideas lay the groundwork for much of the modern studies on cognitive development The collection includes chapters which examine strategic aspects of lifespan cognitive development change mechanisms underlying cognitive development and numeracy acquisition with emphasis given to the application of new strategies for education It explores conceptual and methodological frameworks to best study and understand development during childhood and adulthood and the role of foundational core knowledge on development and acquisition These foundational issues are examined from various angles and finally integrated in a concluding panoramic chapter written by Siegler himself Cognitive Development from a Strategy Perspective offers valuable reading for graduates and researchers in cognitive development and mathematical cognition as well as those at the interface of psychology and education
