Hard-to-Teach Science Concepts Susan Koba,Carol T. Mitchell,2011 Authors Susan Koba and Carol Mitchell introduce teachers of grades 3-5 to their conceptual framework for successful instruction of hard to teach science concepts. Their methodology comprises four steps 1 engage students about their preconceptions and address their thinking 2 target lessons to be learned 3 determine appropriate strategies and 4 use Standards based teaching that builds on student understandings. The authors not only explain how to use their framework but also provide a variety of tools and examples of its application on four hard to teach foundational concepts the flow of energy and matter in ecosystems force and motion matter and its transformation and Earth's shape. Both preservice and inservice elementary school teachers will find this approach appealing and the authors engaging writing style and user friendly tables help educators adapt the method with ease

The Common Core Mathematics Companion: The Standards Decoded, Grades 3-5 Linda M. Gojak,Ruth Harbin Miles,2015-05-28 Your user's guide to the mathematics standards. In the 12 short months since the ELA versions of The Common Core Companions Grades K-2 and 3-5 burst on the scene they've already assisted tens of thousands of teachers with the day to day what you do. Teachers one big criticism what about mathematics. Luckily NCTM past president Linda Gojak and mathematics coach Ruth

Harbin Miles stepped up to the task. The result: That version of the mathematics standards you wish you had. Page by page, The Common Core Mathematics Companions clearly lay out the mathematics embedded in each standard for a deeper understanding of the content. Examples of what effective teaching and learning look like in the classroom. Connected standards within each domain so teachers can better appreciate how they relate. Priorities within clusters so teachers know where to focus their time. The three components of rigor: conceptual understanding, procedural skills and applications. Vocabulary and suggested materials for each grade level band with explicit connections to the standards. Common student misconceptions around key mathematical ideas with ways to address them. Don't spend another minute poring over the mathematics standards. Gojak and Miles have already done the heavy lifting for you. Focus instead on how to teach them using The Common Core Mathematics Companion as your one stop guide for teaching, planning, assessing, collaborating and designing powerful mathematics curriculum.
