Macprudential Solvency Stress Testing of the Insurance Sector

Mr. Andreas A. Jobst, Nobuyasu Sugimoto, Timo Broszeit, 2014-07-22 Over the last decade stress testing has become a central aspect of the Fund's bilateral and multilateral surveillance work. Recently more emphasis has also been placed on the role of insurance for financial stability analysis. This paper reviews the current state of system-wide solvency stress tests for insurance based on a comparative review of national practices and the experiences from Fund's FSAP program with the aim of providing practical guidelines for the coherent and consistent implementation of such exercises. The paper also offers recommendations on improving the current insurance stress testing approaches and presentation of results. *Financial Modeling, Actuarial Valuation and Solvency in Insurance* Mario V. Wüthrich, Michael Merz, 2013-04-04 Risk management for financial institutions is one of the key topics the financial industry has to deal with. The present volume is a mathematically rigorous text on solvency modeling. Currently there are many new developments in this area in the financial and insurance industry: Basel III and Solvency II, but none of these developments provides a fully consistent and comprehensive framework for the analysis of solvency questions. Merz and Wüthrich combine ideas from financial mathematics, no-arbitrage theory, equivalent martingale measure, actuarial sciences, insurance claims modeling, cash flow valuation, and economic theory, risk aversion, probability distortion to provide a fully consistent framework. Within this framework they then study solvency questions in incomplete markets, analyze hedging risks, and study asset and liability management questions as well as issues like the limited liability options dividend to shareholder questions, the role of reinsurance, etc. This work embeds the solvency discussion and long-term liabilities into a scientific framework and is intended for researchers as well as practitioners in the financial and actuarial industry, especially those in charge of internal risk management systems. Readers should have a good background in probability theory and statistics and should be familiar with popular distributions, stochastic processes, martingales, etc. *Capital Requirements, Disclosure, and Supervision in the European Insurance Industry* M. Starita, I. Malafronte, 2015-12-17 Capital Requirements Disclosure and Supervision in the European Insurance Industry provides an in-depth analysis of Solvency II's issues by combining both a theoretical approach and evidence of the empirical implications and effects on the European insurance industry. **Common Problems in Acute Care Surgery** Laura J. Moore, S. Rob Todd, 2016-12-07 This text provides a comprehensive evidence-based review of the most common clinical problems encountered by acute care surgeons. Focusing on the clinical care of the patient, this volume explores the general principles of acute care surgery and the specific disease states that are commonly encountered by acute care surgeons. The work also touches upon the ethical issues and systems development behind acute care surgery, including practical considerations for establishing an acute care surgery program, ethical considerations in acute care surgery, and the role of palliative care. The second edition of the textbook includes updates to all of the chapters from the first edition. New topics addressed include management of intra-abdominal infections, management of the open abdomen, and hemodynamic monitoring of the critically ill surgical patient. Each chapter addresses a specific topic in acute care surgery. All chapters are written by experts in the

field of Acute Care Surgery Each chapter includes a brief overview of the epidemiology of the clinical problem the clinical presentation and diagnosis of the problems and a discussion of the treatment options and potential complications that may arise Common Problems in Acute Care Surgery Second Edition will be of great value to surgical residents fellows and practicing acute care surgeons *Verhandlungen des Deutschen Bundestages* Germany.
