1 Now mankind is fighting against the Corona virus Everyday a lot of people are dying dead and suffering by the Corona virus circulating the world Heavier suffering and burden are given to the economical weak This is a very serious problem to be solved soon However it is only a small tip of big problem we are facing today The more serious and hard to solve problem like Gordian knot is the environmental problems of earth revealing the symptoms such as the marine pollution destruction of forest desertification climatic change and so on accelerated by the financial capitalism and tribal egoism As philosopher Nietzsche said mankind becomes the disease of earth At this rate Homo sapiens will disappear before the great flower of Earth Democracy begins to bloom This terrible result is the product of ego centric small reason dichotomous reason namely instrumental reason Such selfish exclusive reason constructs the vertical system of knowledge vertical relationship of possession and vertical ruling relationship at any cost We can not avoid greed opposition deception distrust conflict violence and war It is because the self is the genius of the lie and deception so confabulates endlessly to justify and rationalize himself or herself in order to maximize his or her benefits and pleasures We can not avoid the conflict between two monadic selves conflict between two logoi conflict between two benefits and conflict between two justifications So we can make a long list of cases of tragic violences and wars caused by the political leaders who was just a greedy liar swindler intellectual dwarf and sly hypocrite However the direction and way for the collective intelligence are clear and distinct It is inevitable to solve the pains of mankind and all living bodies of earth

2 The collective intelligence of mankind has explored and tried to discover the ultimate truth and to actualize the democracy incessantly Science and philosophy are the tracks of hard fighting of brave men in order to make the good world where the universal truth is alive in the justice and democracy The collective intelligence of mankind has achieved the incessant progress through the Copernican changes in scientific truth Science has escalated the status of human beings continuously in the universe All human beings are equal extremely precious and solemn Being allowed to parody Wittgenstein now it is time to keep silent about the affairs which are not coincident with the truth of science in order to keep the infinite value and dignity of human beings It is because the substantialization of false concepts allows all kinds of liars and swindlers to win the games pleasantly while justice keeps silent and human happy life and peace of earth are destroyed in the white screamings Contemporary great philosopher Deleuze overturns such false concepts decisively and opens new metaphysics and ethics based on the contemporary sciences Deleuze's philosophy of multiplicity and event is very close to Buddha's philosophy of Dharma and Middle Way which is also very scientific and practical Middle Way is the ultimate truth and it is the single unique solution to solve the problem of earth ultimately It is time we need to pay attention seriously on Deleuze and Buddha if we wish to live in justice democracy freedom peace and happiness

3 This book compares the same points and different points with selected several keywords in the epistemology ontology and practical theory between Deleuze and Buddhism Both will go forward

together for the democracy peace and happiness of earth Michel Foucault predicted that the 20th century will be considered as that of Deleuze which will never be a joke or an exaggeration We can enter into the Buddhism and come out of Deleuze and vice versa

A Mobius Strip Francis Schiller, 2018-11-27 M bius strip a one sided surface formed by holding one end of a rectangle fixed rotating the opposite end through 180 degrees and then applying it to the first end Webster s Third International Dictionary In this intriguing book Francis Schiller describes the philosophy life and work of Paul M bius tracing through them the beginnings of modern neuropsychiatry Freud called M bius a pioneer of psychotherapy The grandson of the inventor of the M bius strip he made important contributions to both neurology and psychiatry The Leipzig physician had come to the study of medicine by way of philosophy Consistent with his own nonmaterialistic monism he sought a unifying solution to the age old problem of the relationship between the mind and the brain Schiller aptly uses the geometrical puzzle invented by M bius s grandfather to illustrate M bius s view of this relationship A M bius Strip is a unique exploration of nineteenth century views of the mind body problem and of the relationship between disorders of the brain and the psyche It sheds light on the origins of modern psychotherapy and the concept of the unconscious the formulation of hysteria as a psychogenic disorder the localization of function in the brain the relationship between neurology and psychiatry and turn of the century ideas about sex and behavior This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982 [The Möbius Strip](#) Jonathan D. Amith, 2005-10-10 The M bius Strip explores the history political economy and culture of space in central Guerrero Mexico during the colonial period This study is significant for two reasons First space comprises a sphere of contention that affects all levels of society from the individual and his or her household to the nation state and its mechanisms for control and coercion Second colonialism offers a particularly unique situation for it invariably involves a determined effort on the part of an invading society to redefine politico administrative units to redirect the flow of commodities and cash and ultimately to foster and construct new patterns of allegiance and identity to communities regions and country Thus spatial politics comprehends the complex interaction of institutional domination and individual agency The complexity of the diachronic transformation of space in central Guerrero is illustrated through an analysis of land tenure migration and commercial exchange three salient and contested aspects of hispanic conquest The M bius Strip therefore addresses issues important to social theory and to the understanding of the processes affecting the colonialization of non Western societies *Anxiety and the Contradictions of Culture* Stephen Felder, 2024-09-20 Anxiety and the Contradictions of Culture explores anxiety from the perspective of Lacan s claim that anxiety is a signal of the Real Showing how our relationship with anxiety is intertwined with our fantasies Felder unpacks how anxiety is related to the gaze sex race and our capacity for social change **Walking the**

Möbius Strip Johanna Heil, 2016 Walking the Mobius Strip locates Richard Powers's fiction at the crossroads of postmodern and post postmodern aesthetics and argues that this paradigm shift shapes the models of knowledge and understanding that underwrite his work The readings of *Plowing the Dark* *Galatea 2.2* and *The Echo Maker* are inspired by Jacques Lacan's image of cognition as a Mobius strip on which different forms of propositional and non propositional knowledge bleed into and depend upon one another Drawing on feminist epistemology and psychoanalysis this study highlights Powers's interest in the non propositional aspects of cognition that is in all that escapes the frameworks of scientific empiricism and can only be known through the mediation of fictional narrative It reveals a deep dissatisfaction in the novels with the suggestion that knowledge and understanding must be objective and rational and elucidates Powers's idea that fiction can be a powerful tool for integrating various kinds of knowledge
