Candreva,2017-05-01 The U S Department of Defense accounts for over half of federal government discretionary spending and over 3% of GDP Half of all federal employees work for the Department The annual budget for the military not only provides for those salaries it covers the baseline and wartime operating expenses of the force and hundreds of billions of dollars of investment in new capabilities and technologies Given the materiality of the defense function and amount of resources it consumes the processes for budgeting for defense and managing the funds is important to understand This text provides a fully integrated view of defense budgeting It takes the position that defense budgeting is a specific instance of public budgeting and public budgeting is a specific instance of public policy In order to fully understand

how the nation budgets for defense it first lays a theoretical and conceptual foundation for public policy and public budgeting That is followed by an assessment of the political and policy context for defense including the overarching federal budget process and role of Congress in setting defense policy Only then does the text explore the specifics of defense budgeting how by whom and why the budget is crafted Beyond the topic of budgeting formulating requesting and legitimating the request for funds the book tackles financial management topics Included are discussions of federal appropriations law funds management accounting requirements intragovernmental business transactions and contemporary topics of defense policy such as funding overseas contingency operations in an era of deficit control legislation This book is an appropriate reference for both students and practitioners of defense budgeting and financial management It would also be appropriate in a general public budgeting course Most public budgeting texts focus on state and municipal governments and there are few that address the federal system This book fills that gap and provides a specific example of federal budgeting *Proceedings of the 2nd International Conference on Education Innovation and Social Science (ICEISS 2023)* Rochman Hadi Mustofa,Tri Nur Wahyudi, Titik Ulfatun,Dhany Efitasari,2023-12-28 This is an open access book The 2nd International Conference on Education Innovation and Social Science ICEISS 2023 is organized by the Accounting Education Study Program Faculty of Education Universitas Muhammadiyah Surakarta Indonesia This online conference was held on 18 July 2023 with the theme Reimagining and Rebuilding a Holistic and Constructive Education The aim of the conference is to provide a platform for researchers education practitioners governments NGOs and research institutes to share cutting edge progress in education innovation and social science **Personal Finance Trivia Quiz for Smart Teens, Beginners, and Adults**
