Alliteration

The repetition of similar consonant sounds within a phrase or sentence

Allusion

A reference to a well-known person, event, place, literary work, or work of art

Anaphora

repetition of a word or phrase at the beginning of successive phrases, clauses, or lines

Antithesis

two opposite ideas are put together in a sentence to achieve a contrasting effect

Example: "Injustice anywhere is a threat to justice everywhere."

Asyndeton

the absence of conjunctions between coordinate phrases, clauses or words.

Example: "I came, I saw, I conquered."

Purpose - helps in reducing the indirect meaning of the phrase and presents it in a concise form; typically used to give a list energy and spontaneity.

Conduplication

repetition of a key word over successive phrases or clauses

Example: "We will have difficult times. We've had difficult times in the past. And we will have difficult times in the future." (Robert F. Kennedy's Eulogy for Martin Luther King, Jr., 1968)

Purpose - Serves as an effective focusing device showing the reader what to concentrate on

Foreshadowing

Giving clues to the reader about what will happen next.

Imagery

Language that creates a sensory impression within the reader's mind (includes appeals to the visual (eyes), auditory (ears), tactile (touch), thermal (heat or cold), olfactory (smell), gustatory (taste), and kinesthetic

Metaphor

A figure of speech in which something is described as though it were something else without using "like" or "as."

Paralipsis

pretending to omit something

Example: "I will not even mention the fact that my opponent was a poor student."

Purpose -- Saying that one will not mention the person, subject, event, etc. has the opposite effect; it draws the audience's attention in that direction.

Parallel structure/parallelism

Similarity in structure in a pair or series of related words, phrases, or clauses.

Example: "They are protesting for the perpetuation of injustice in the community; we're protesting for the birth of justice. . . ."

Note: It is the repetition of grammatical structures, not words (as in anaphora or conduplication).
