Learning Web Design Fast Track 101:

The Design of Learning Experience Brad Hokanson, Gregory Clinton, Monica W. Tracey, 2015-07-03 This book delves into two divergent yet parallel themes first is an examination of how educators can design the experiences of learning with a focus on the learner and the end results of education and second how educators learn to design educational products processes and experiences The book seeks to understand how to design how learning occurs both in the instructional design studio and as learning occurs throughout the world This will change the area s semantics at a deeper level it will change its orientation from instructors and information to learners and it will change how educators take advantage of new and old technologies This book is the result of a research symposium sponsored by the Association for Educational Communications and Technology AECT

E-learning and Disability in Higher Education Jane K. Seale, 2013-10-08 Most people working within the higher education sector understand the importance of making e learning accessible to students with disabilities yet it is not always clear exactly how this should be accomplished E Learning and Disability in Higher Education evaluates current accessibility practice and critiques the extent to which best practices can be confidently identified and disseminated This second edition has been fully updated and includes a focus on research that seeks to give voice to disabled students in a way that provides an indispensable insight into their relationship with technologies and the institutions in which they study Examining the social educational and political background behind making online learning accessible in higher and further education E Learning and Disability in Higher Education considers the roles and perspectives of the key stake holders involved in e learning lecturers professors instructional designers learning technologists student support services staff developers and senior managers and administrators
