Advanced AI Methods for Plant Disease and Pest Recognition Jucheng Yang,Yalin Wu,Alvaro Fuentes,Sook Yoon,Tonghai Liu,2024-06-06 Plant diseases and pests cause significant losses to farmers and threaten food security worldwide Monitoring the growing conditions of crops and detecting plant diseases is critical for sustainable agriculture Traditionally crop inspection has been carried out by people with expert knowledge in the field However regarding any activity carried out by humans this activity is prone to errors leading to possible incorrect decisions Innovation is therefore an essential fact of modern agriculture In this context deep learning has played a key role in solving complicated applications with increasing accuracy over time and recent interest in this type of technology has prompted its potential application to address complex problems in agriculture such as plant disease and pest recognition Although substantial progress has been made in the area several challenges still remain especially those that limit systems to operate in real world scenarios *Advanced Image Fusion Techniques for Medical Imaging* Palani Thanaraj Krishnan,Vijayarajan Rajangam,2025-07-02 Advanced Image Fusion Techniques for Medical Imaging Trends Applications and Future Directions is a comprehensive exploration of cutting edge image fusion methodologies in the realm of medical imaging This timely work addresses the growing need for advanced techniques to integrate and analyze multi modal medical images offering healthcare professionals and researchers a valuable resource for improving diagnostic accuracy and patient outcomes The book provides a thorough examination of both conventional and deep learning based fusion strategies covering a wide spectrum of applications in medical image processing From noise reduction and image enhancement to segmentation and classification the authors present a detailed analysis of how image fusion can be leveraged to overcome the limitations of individual imaging modalities Real world case studies and practical examples throughout the text demonstrate the tangible benefits of these techniques in clinical settings Looking beyond current applications this forward thinking volume also explores emerging trends and future directions in medical image fusion By addressing challenges and potential impacts on healthcare practices the authors offer readers a glimpse into the future of medical imaging This book serves as an essential guide for researchers in biomedical engineering medical professionals specializing in radiology and medical imaging and graduate students in computer science electrical engineering biomedical engineering This diverse audience reflects the book s comprehensive approach to advanced image fusion techniques in medical imaging covering both theoretical foundations and practical applications **Advanced Computational Intelligence Methods for Processing Brain Imaging Data** Kaijian Xia,Yizhang Jiang,Yu-Dong Zhang,Mohammad Khosravi,Yuanpeng Zhang,2022-11-09 GENERATIVE AI INNOVATIONS: Exploring Advanced Techniques and Applications in Modern AI DR. A. SEENU,DR. P. R. SUDHA RANI, **Digital Ecosystems: Interconnecting Advanced Networks with AI Applications** Andriy Luntovskyy,Mikhailo Klymash,Igor Melnyk,Mykola Beshley,Alexander Schill,2024-07-29 This book covers several cutting edge topics and provides a direct follow up to former

publications such as Intent based Networking and Emerging Networking bringing together the latest network technologies and advanced AI applications Typical subjects include 5G 6G clouds fog leading edge LLMs large scale distributed environments with specific QoS requirements for IoT robots machine and deep learning chatbots and further AI solutions The highly promising combination of smart applications network infrastructure and AI represents a unique mix of real synergy Special aspects of current importance such as energy efficiency reliability sustainability security and privacy telemedicine e learning and image recognition are addressed too The book is suitable for students professors and advanced lecturers for networking system architecture and applied AI Moreover it serves as a basis for research and inspiration for interested professionals looking for new challenges **A.I.
