Dynamics of Galaxies and Their Molecular Cloud Distributions F. Combes, F. Casoli, 1991-01-31 Proceedings of the 146th Symposium of the International Astronomical Union held in Paris France June 4 9 1990 *Understanding the Grand Design* Joachim Wolf, 2003 Increasingly scientific discoveries are revealing similarities with spiritual concepts but the common basis of science and spirituality has so far escaped a logical explanation This book describes how we can understand this common basis if we do something as simple as change our point of view After that it becomes a matter of common sense a brand new type of common sense that is available to everyone not just scientists This new common sense called Holistic Logic produces surprising and convincing results when applied to dimensions that transcend our three dimensional world Holistic Logic leads to conclusions that agree with the teachings of Christ Vedic Scripture and the tenets of Buddhist philosophy Even those unschooled in science can understand how Holistic Logic holds true for discoveries in Quantum Physics and Einstein's Theory of Relativity Holistic Logic explains spiritual reality in a rational way using the laws of multi dimensional reality much in the same way we explain physical reality with laws of physics This may well be the breakthrough that Mankind has been seeking for centuries Holistic Logic may finally have made the connection between the science of matter and the world of spirit In the future this connection may prove to be even more significant than that event some 400 years ago when Humankind first understood that the earth was not the center of the universe Today the world is desperate for a change As humans we are struggling to cope with the ever increasing problems that we are causing in our eco systems and in ourselves We are recklessly depleting our oil reserves we are destroying the lungs of our planet by cutting down the rainforests and have set in motion a pattern of global warming that can have disastrous results for us and our children As individuals we feel that we are at the mercy of random events Some of us are maimed or murdered some of us develop fatal diseases and many of us know disappointment and guilt We don't understand the forces that drive events nor the apparent indifference of a God who expects obedience but rains misfortune down upon us We are powerless in the face of tragedies like that which occurred on 9 11 01 Now we have the tools that will help us to avoid destruction and turn the whole situation around We have the ability to understand and implement the laws of spiritual reality We have a method that will help us to understand The Grand Design and to create the kind of world that we want We have Holistic Logic This book explains the basics of Holistic Logic citing 10 Holon Principles that when taken together comprise the Holistic Logic System With the aid of clear practical examples and many illustrations the reader will understand the building blocks of physical and spiritual reality the mysterious union of the Whole and its Parts *The Physics of the Interstellar Medium and Intergalactic Medium* Andrea Ferrara, 1995 *Universe* Eric Chaisson, 1988 Soft Computing and Signal Processing Jiacun Wang, G.
