## How To Write Achievement Report:

**Writing Achievement of California Eighth Graders, Year Two** Mary Frances Claggett, California State Department of Education, 1989 The second statewide direct writing assessment was conducted for grade eight by the California Assessment Program CAP in the spring of 1988 Each student wrote an essay in response to 1 of 45 prompts writing tasks representing 6 types of writing autobiographical incident report of information problem solution evaluation story and firsthand biography A total of 294 859 essays were scored at 6 regional scoring sites by 384 teachers this number includes a 5% sample of papers that was double scored for reliability studies Approximately 96% of the students who took the essay test comprehended the writing tasks and responded to the topic Scores were assigned for rhetorical effectiveness special features such as coherence or elaboration and conventions Results revealed that most students wrote adequate or marginally adequate essays 62% some wrote exceptionally well 12% and others wrote poorly 22% Eighth graders were most competent at reporting information less competent at writing autobiography and firsthand biography and least able to write a story and to produce the two kinds of persuasive writing Also students exhibited better control of conventions than of rhetorical strategies Overall students scores increased Recommendations for school administrators teachers and parents are included KEH *Resources in Education*, 2000 The Writing Report Card Arthur N. Applebee, Judith A. Langer, Ina V. S.

Mullis, 1986 Based on the National Assessment of Educational Progress NAEP 1984 assessment of the writing achievement of American school children this report presents national and demographic subgroup achievement results for students in grades four eight and eleven and discusses students attitudes toward writing and instruction The first chapter describes the tasks and evaluation criteria used in the study and highlights results of the study including the following 1 although many students appeared to know the basic elements of analytic writing such writing was difficult for students in all grades 2 while most students could express their points of view in persuasive writing many had difficulty providing evidence for those viewpoints 3 students had less difficulty with tasks requiring short responses based on personal experience 4 students found it moderately difficult to write well developed stories 5 home environment is related to writing achievement 6 students who indicated writing three or more reports and essays during a 6 week period had higher achievement levels than students who reported not writing during that time period 7 students positive attitudes toward writing deteriorate steadily across the grades 8 students reported that their teachers are more likely to mark mistakes than to show an interest in what they write or to make suggestions for the next paper and 9 content area writing increases between grades four and eight and decreases again in senior high school The next four chapters provide specific achievement data by grade level for informative persuasive and imaginative writing and for writing performance among various demographic subgroups The remaining three chapters focus on students responses to questions concerning writing and writing instruction specifically their values and attitudes toward writing how they manage the writing process and what they write and the help they receive HTH *Report*

web routinely grown in monolayer cultures at 37 °C in 5 °C and had a doubling time of 24 hours. Zhenping Tang, Ramana Srinivasan, et al. Activation of human fibroblasts in transgenic mice has been a challenge in the field of regenerative medicine. The use of induced pluripotent stem cells (iPSCs) offers a promising alternative. In this study, we report the development of a protocol for the generation of iPSCs from fibroblasts using a combination of genetic and chemical factors. The protocol involves the use of a lentiviral vector to express Oct4, Sox2, Klf4, and c-Myc, followed by treatment with a cocktail of growth factors (Leukemia Inhibitory Factor, Activin A, and Fibroblast Growth Factor 2). The resulting iPSCs exhibit typical pluripotency markers, including the ability to form teratomas in immunodeficient mice. The protocol is simple, efficient, and reproducible, making it a valuable tool for the study of human stem cell biology and its applications in regenerative medicine.
