**Standard operating procedure for soil enzyme activities** Food and Agriculture Organization of the United Nations, de Carvalho Mendes, I., 2025-02-24 This standard operating procedure SOP has been harmonized by the joint working group of the FAO's Global Soil Laboratory Network GLOSOLAN and the International Network on Soil Biodiversity NETSOB. The protocol focuses on the determination of five soil enzyme activities: Glucosidases, Arylsulfatase, N-acetyl Glucosaminidase, Dehydrogenase, and Phosphomonoesterases. After a general introduction on the importance of soil enzyme as a key indicator for soil health and a few remarks on the sampling strategies, the determination of each enzyme is presented separately with step-by-step instructions.

**Planning, Writing and Reviewing Medical Device Clinical and Performance Evaluation Reports (CERs/PERs)** Joy Frestedt, 2024-09-19 A Practical Guide to Planning, Writing and Reviewing Medical Device Clinical Evaluation Reports guides readers through clinical data evaluation of medical devices in compliance with the EU MDR requirements and other similar regulatory requirements throughout the world. This book brings together knowledge learned as the author constructed hundreds of CERs and taught thousands of learners on how to conduct clinical data evaluations. This book will support training for clinical engineers, clinical evaluation scientists, and experts reviewing medical device CERs and will help individual writers, teams, and companies to develop stronger, more robust CERs. It identifies and explains data analysis for clinical evaluation of medical devices, teaches readers how to understand and evaluate medical device performance and safety in the context of new regulations, provides analysis of new clinical evaluation criteria in the context of medical device design as well as in hospital deployment and servicing.

Quality assurance of pharmaceuticals: a compendium of guidelines and related materials, tenth edition. Volume 1. Good practices and related regulatory guidance World Health Organization, 2024-10-24 This publication represents a significant achievement in our ongoing effort to ensure that everyone can reach the highest possible level of health. Over the last three decades, we have seen the transformation of the pharmaceutical industry and the increasing intricacy of the product life cycle. The challenges we face today are very different from those we faced when the first edition of this Compendium was published in 1997. However, our mission remains the same: to promote health, keep the world safe, and serve the vulnerable. The new edition reflects the collective knowledge and expertise of countless professionals who have worked diligently to develop, revise, and implement WHO guidelines for pharmaceuticals. This includes experts from WHO Member States, our Expert Advisory Panels, and Expert Committees on Specifications for Pharmaceutical Preparations and other organizations, and has undergone extensive consultation with stakeholders worldwide. This Compendium covers development through manufacturing and quality control to post-marketing surveillance. It provides a comprehensive framework for quality assurance that is both strong and flexible, capable of meeting the requirements of a rapidly changing global health landscape. The 10th edition is a collection of knowledge and tools for empowerment, enabling all stakeholders in the pharmaceutical industry to make informed decisions that prioritize patient
