 the early stages of the course when the material is presented in a familiar concrete setting But when abstract concepts are
 introduced students often hit a brick wall Instructors seem to agree that certain concepts such as linear independence
 spanning subspace vector space and linear transformations are not easily understood and require time to assimilate Since
 they are fundamental to the study of linear algebra students understanding of these concepts is vital to their mastery of the
 subject Lay introduces these concepts early in a familiar concrete \mathbb{R}^n setting develops them gradually and returns to them
 again and again throughout the text so that when discussed in the abstract these concepts are more accessible **Linear**
